Vendor Selection

'ResearchFox LAYERS' - the intention is not to provide analysis of every vendor, but to give a focused analysis on selected vendors.

Inclusion criteria cover several parameters depending upon the nature of the market

Market share

Revenue

Number of clients

Types of products or services

Target market and other defining characteristics

Each member needs to receive 5-30 surveys (depending upon the maturity of the market) from their customers and channel partners.

Each had to deliver minimum required capabilities in the respective technology.

Research Methodology

Research activities include, but are not limited to

ResearchFox Analyst team sends a detailed questionnaire to the vendor for assessment*

ResearchFox Analyst team conducts a comprehensive analysis of vendor rating, which later gets validated with in-depth vendor briefings, interviews of reference customers and partners identified by the vendors, and further interaction with industry/subject matter experts

Necessary changes get accommodated depending upon the feedbacks from various sources, however, it is ResearchFox, which gives the final vendor ratings as per its analysis.
