Abstracts

Gene therapy is a therapeutic technique which replaces damaged proteins in the cell by artificially introducing the DNA into a cell. Majority of the metabolic or genetic disorders are a consequence of either a direct genetic aberration or a dysfunctional/non-functional protein. The attempt to use nucleic acids to correct or erase the genes causing a particular disease is the basis of gene therapy. Despite the fact that gene therapy has not contributed fundamentally to the global pharmaceutical market yet, it is expected to grow at a fast pace over the next decade.

As indicated by the new estimation carried out in our most recent study, the global gene therapy industry can possibly turn into a multi-million dollar industry by the end of 2020, as new products, particularly those in the advanced stage of clinical studies or with pending approvals, may enter the market to boost the growth.

According to RNCOS' new research report "Global Gene Therapy Market Outlook 2020", a major focus has been on the ongoing clinical trials for the development of innovative products. In this context, the study provides a comprehensive overview of various aspects of the clinical trials in the gene therapy market, such as phases, geographies, vector types, etc.

The gene therapy market has very few marketed products. The market is majorly in the research phase from which most of its revenue is generated. The report also provides the sales of major marketed gene therapy products and the list of the products in clinical/pre-clinical research along with their clinical phases.

The companies operating in the gene therapy market are also receiving various funding, grants, and investment from government bodies and venture capitalist firms, which are aiding them to develop new products. The study highlights the applications for which the investments have been received.

Primarily, the gene therapy market is dominated by oncology applications with several companies and academic institutions focusing on novel and 'difficult to treat' cancers. Other therapeutic areas seeking developments in gene therapy include monogenic diseases, cardiovascular diseases, infectious diseases, inherited blindness and neurological diseases. The report provides the market analysis of key therapeutic areas along with the forecast till 2020.

North America continues to have the maximum number of clinical trials in the gene therapy segment. This is a major reason for the dominant position of North America in the gene therapy market. Based on the geography, the market is divided into four regions, namely, North America, Europe, Asia and Rest of the World. The report provides the market for each of the geography, along with its forecast till 2020.

RNCOS, in its report, further covers how major trends and drivers, mainly gene silencing, advanced therapies combining gene therapy and stem cell technology, immunodeficiency syndromes, growing interest of venture capital firms, etc. will propel the industry's growth. An analysis has also been done of a few factors limiting the growth of the industry. The report also provides insights regarding the strategies adopted by the players from 2013 to 2015 for enhancing their market share. Finally, with a view to understanding the competitive landscape, the profiles of key market players have been included in the report to present a complete picture of the global gene therapy market.

Contents

1. ANALYST VIEW

2. RESEARCH METHODOLOGY

3. GENE THERAPY - AN INTRODUCTION

3.1 Classification of Gene Therapy Techniques

3.2 Physical Methods of Gene Transfer

3.2.1 Electroporation

3.2.2 Hydrodynamic

3.2.3 Microinjection

3.2.4 Particle Bombardment

3.2.5 Ultrasound-Mediated Transfection

3.3 Vectors for Gene Therapy

3.3.1 Viral Vectors

3.3.1.1 Adenoviral Vectors

3.3.1.2 Adeno-associated Virus Vectors

3.3.1.3 Retroviral Vectors

3.3.1.4 Lentiviral Vectors

3.3.2 Non Viral Vectors

3.3.2.1 Naked DNA/Plasmid Vectors

3.3.2.2 Oligonucleotides

3.3.2.3 Liposomes, Lipoplexes and Polyplexes

3.3.2.4 Gene-Activated Matrix

4. INDUSTRY OVERVIEW

4.1 Market Drivers

4.1.1 Failure of Conventional Therapies to Treat Cancers

4.1.2 Rising Focus to Accelerate Commercialization of Gene Therapy in Developed Nations

4.1.3 Rising Incidence of Chronic and Life Threatening Diseases

4.1.4 Growing Interest of Venture Capital Firms

4.2 Market Restraints

4.2.1 Stringent Regulatory Laws & Safety Concerns

4.2.2 Pitfalls in Current Technique

4.2.3 High Cost of the Gene Therapy Drugs

4.3 Market Opportunities

4.3.1 Approval of Gene Therapy Drug in Europe

4.3.2 Gene Therapy for Hemophilia B Offers Significant Opportunity

4.4 Industry Trends

4.4.1 Gene Silencing: Gaining Momentum

4.4.2 Advanced Therapies: Combining Gene Therapy and Stem Cell Technology

4.4.3 Immunodeficiency Syndromes: The Focus of Gene Therapy

4.4.4 Nanotechnology: Empowering Gene Therapy

4.4.5 Gene Therapy: A New Hope to Treat Blindness

4.4.6 Gene Therapy: Potential Cure for Cancer

4.5 Winning Imperatives

4.5.1 Investment in R&D Activities

5. CLINICAL TRIAL ASSESSMENT & PIPELINE ANALYSIS

5.1 Clinical Trials

5.1.1 By Geography

5.1.2 By Indication

5.1.3 By Gene Type

5.1.4 By Vector

5.1.5 By Clinical Trial Phase

5.2 Pipeline Analysis

6. GENE THERAPY MARKET - REGULATORY LANDSCAPE & REIMBURSEMENT SCENARIO

6.1 Regulatory Landscape

6.1.1 US

6.1.2 Canada

6.1.3 Europe

6.1.4 Japan

6.1.5 China

6.1.6 India

6.1.7 Australia

6.2 Reimbursement Scenario in Global Market

7. MARKETED GENE THERAPIES

7.1 Neovasculgen

7.2 Glybera

7.3 Gendicine, Rexin-G, Oncorine

7.3.1 Gendicine

7.3.2 Rexin G

7.3.3 Oncorine

8. GLOBAL GENE THERAPY MARKET

9. GENE THERAPY MARKET BY APPLICATION

9.1 Oncology

9.2 Cardiovascular Diseases

9.3 Infectious Diseases

9.4 Neurological Diseases

9.5 Genetic Diseases

9.6 Others

10. GLOBAL GENE THERAPY MARKET SIZE BY GEOGRAPHY

10.1 North America

10.2 Europe

10.3 Asia

10.4 Rest of the World (RoW)

11. COMPETITIVE LANDSCAPE

11.1 Strategies Adopted by Various Players

11.1.1 Strategic Collaborations

11.1.2 Acquisitions

11.1.3 Funding & Investments

11.2 Companies Progress in Gene Therapy In 2015

12. KEY PLAYERS ANALYSIS (BUSINESS DESCRIPTION, CLINICAL PIPELINE, RECENT DEVELOPMENTS, STRENGTHS & WEAKNESSES)

12.1 Spark Therapeutics, LLC

12.2 ViroMed Co. Ltd. dba VM BioPharma

12.3 Advantagene Inc.

12.4 Bluebird Bio

- 12.5 Sanofi
- 12.6 Vical Inc.
- 12.7 Oxford BioMedica Plc
- 12.8 Genethon
- 12.9 UniQure N.V.
- 12.10 Human Stem Cells Institute
- 12.11 Shanghai Sunway Biotech Co. Ltd.
- 12.12 Sibiono GeneTech Co. Ltd.

List Of Figures

LIST OF FIGURES:

- Figure 4-1: Global - Venture Capitalist Investments in Gene Therapy Product Development (Billion US\$), 1999 to H1 2015
- Figure 5-1: Global - Number of Approved Gene Therapy Clinical Trials (2005-July 2015)
- Figure 5-2: Global - Geographical Distribution of Gene Therapy Clinical Trials by Continents till July, 2015
- Figure 5-3: Global - Geographical Distribution of Gene Therapy Clinical Trials by Countries till July, 2015
- Figure 5-4: Global - Gene Therapy Clinical Trials by Indication till July, 2015
- Figure 5-5: Global - Gene Therapy Clinical Trials by Types of Gene Transferred till July, 2015
- Figure 5-6: Global - Gene Therapy Clinical Trials by Percentage of Vectors Used till July, 2015
- Figure 5-7: Global - Gene Therapy Clinical Trials by Phase till July, 2015
- Figure 6-1: US - Number of New Cell Therapy and Gene Therapy Products Submission to FDA (2003-2010)
- Figure 6-2: Japan - Evaluation System of Gene Therapy Clinical Trial
- Figure 7-1: Global - Neovascugen Sales (Million US\$), 2013 & 2014
- Figure 8-1: Global - Gene Therapy Market (Million US\$), 2014, 2015 & 2020
- Figure 9-1: Global - Gene Therapy Market by Application (%), 2015
- Figure 9-2: Global - Gene Therapy Market by Application (%), 2020
- Figure 9-3: Global - Gene Therapy Oncology Market (Million US\$), 2014, 2015 & 2020
- Figure 9-4: Global - Gene Therapy Oncology Market by Geography (%), 2015
- Figure 9-5: Global - Gene Therapy Cardiovascular Disease Market (Million US\$), 2014, 2015 & 2020
- Figure 9-6: Global - Gene Therapy Cardiovascular Disease Market by Geography (%), 2015
- Figure 9-7: Global - Gene Therapy Infectious Disease Market (Million US\$), 2014, 2015 & 2020
- Figure 9-8: Global - Gene Therapy Infectious Disease Market by Geography (%), 2015
- Figure 9-9: Global - Gene Therapy Neurological Disease Market (Million US\$), 2014, 2015 & 2020
- Figure 9-10: Global - Gene Therapy Neurological Disease Market by Geography (%), 2015
- Figure 9-11: Global - Gene Therapy Genetic Disease Market (Million US\$), 2014, 2015 & 2020

Figure 9-12: Global - Gene Therapy Genetic Disease Market, by Geography (%), 2015

Figure 9-13: Global - Gene Therapy Other Disease Market (Million US\$), 2014, 2015 & 2020

Figure 9-14: Global - Gene Therapy Other Disease Market by Geography (%), 2015
