## Abstracts

Anti-Aging market is an important part of Cosmetics industry, and is considered as one of the swiftly growing markets in India. Now-a-days, environmental aggression has made people extremely conscious about their skin. Many people begin to show signs of premature aging as early as their thirties due to oxidative stress, sun exposure, or unhealthy lifestyle. Signs of aging result in the form of fine lines & wrinkles, brown spots or red spots, dull skin, loose skin, acne scars, etc. Smoking and sun damage are the two major factors that lead to premature aging.

Indian Anti-Aging industry has reported a tremendous growth in the recent years, and is presenting ample opportunities to the industry players. With favorable demographics and rising awareness, Indian Anti-Aging market is poised to scale newer acmes. Moreover, introduction of various Anti-Aging products and entry of new players is set to further boost the market's growth.

The latest research by RNCOS titled, "Indian Anti-Aging Market Outlook 2022", illustrates the current and future scenario of Indian Anti-Aging market. In the report, the Indian Anti-Aging market is segmented on the basis of type of product categories, and regionally.
