INDUSTRY INSIGHTS

According to a new report by Rockville Research, the global aerospace and defence market is estimated to be valued at US\$ 1600 billion in the year 2025, growing at a CAGR of 3.5% in the period 2019 to 2025. Growth of the market is driven by factors such as boom in commercial aircrafts segment, surge in global airline traffic, and rise in military expenditure.

The aerospace and defence industry comprises of companies dealing with manufacturing of civil and military procurements. Global aerospace industry has undergone rapid transition over recent years as traditional leading market players have experienced coldness in domestic markets. Moreover, increased geopolitical uncertainty has led to higher defence spending.

Global aerospace and defence industry is increasingly witnessing higher demand for next-generation, fuel-efficient aircrafts. This move is mainly seen as a result of rise in oil prices which is negatively impacting growth of the industry.

REPORT SCOPE

This report “Global Aerospace & Defence Market [(By Region – North America (The US & Mexico), Europe (The UK, Germany & France) & Asia Pacific (Japan, China & India)] Outlook 2025” provides a detailed analysis of the global aerospace and defence market

from qualitative and quantitative outlooks during the forecast period across various market segments. It also provides coverage on market dynamics with potential impact on the market during the forecast period and an in-depth analysis of the leading companies operating in the market.

Parameter Description

Base year 2014
