## Abstracts

The basic stresses were arriving from the monetary recession and the result of dot-com bubble crush. This was the main reason that the conditions of industry started to decline in 2000. The rivalry between the current corporation and the new entries were becoming extra strengthened; the corporation become additional capable and the requirement for services of telecommunication decreased gradually. The other main factor that leads executives and managers to cook the books is stress to maintain ratio of expense-to-revenue at 42%. In this ways, the financial reports of company looked good in front of public. Cont... (1000 words of this report)
