## **Abstracts**

ABC Water Company is operating in Kuwait that offers the production of water, the company requires electricity for running its plants. Now, it is relying on the traditional energy generation by using crude oil based resources. The price of crude oil is increasing and its reserves are reducing, so it is the time for organization to move toward the alternative economic sources of energy generation. In case the company will not pay attention toward the alternative source of energy generation in future they will have to deal with energy crisis, environmental penalties and reduced profits. The report suggests focus on renewable energy generation by solar panels as potential solution. (Continued...) Wordcount of report: 3000 words

## Contents
