## Abstracts

Auditing is defined as the process of examination of financial statements of business with the goal of judgment of monetary creditability of business and to evaluate as either the business is displaying the true financial position or not. The main purpose of the report is to evaluate as how the Cisco systems prepare their audit report and then to make comparison of the audit report of the VIVA Telecom and the audit report of the Cisco Systems. The report will be divided mainly into different heads and sections as the first section of the report mention the background of the Cisco Systems Company in detail and to decide whether it is a private company or the public company. Then in the second section of the report the information as how the private or public company outlines their audit report along with the complete description of the all steps involved in the audit report. The third section of the report will include information about as how the Cisco Systems present the audit report and the structure of the audit report of the company that is analyzed by taking the information from the annual report of the company. The fourth section of the report will identify the type of the audit report depending on the opinion in the report. Fifth section of the report will include the comparison of the Kuwaiti company's audit report with the audit report of the Cisco Systems in detail and identify the pros and cons of both of the audit reports of both companies along with similarities and differences among them and then in the final section of the report that is the concluding section will summarize as which of the audit report is best in presentation and structure. (Continued...) Wordcount of report: 3000 words
