Abstracts

In corporate social responsibility, the company is required to do actions that are safe and sound. The company's actions that are considered beneficial for society and environment are known as corporate social responsibility. The sustainability in any company can be achieved through corporate social responsibility. Because consumers are considered the most important part of a company and corporate social responsibility is beneficial in this case. The main objective of a non-profit organization is to provide as many benefits as possible. The companies and industries are paying full attention on corporate social responsibility (CSR, 2015).
