Abstracts

Financial plan is define as the planning refer to the evaluation of the forecasted financial position of the business and the inspection of the financial aspects and trends of the business so that to make preparation to respond to the various coming financial trends in the external environment. For the purpose of the financial analysis and financial plan of the business, we will prepare various financial statements on forecasted basis to check the production, sales, assets, and profit and expenditure trends in the future and to evaluate the financial potential of the business.
