Abstracts

In this report, the researcher intends to measure the impact of racism on the overall efficiency of the environment. In addition to this, it can be stated that due to the increase in the racism issue most of the individuals of the society started to feel complex that eventually results in the loss of productivity. Moreover, this report will provide the main element along with the background and significance of the participants that are involved in the issue. The researcher found that racism is something that has been witnessed by all the members of the society. Continued (wordcount of report: 3000 words)
