Abstracts

The progress of companies in attaining its goals based on the system approach and this can make available the management a unified concentration with the guidance and direction towards the success of the business. The system approach is very beneficial for the organization as it assist the organization to follow specific format and direction and it needs from the business to function as unit. The main features of this approach according to organization theory include evaluation of issue, location of factors influencing different system functions and the establishment of solution for resolving the interference of factor with the attainment of objectives (Geoff Southern, 1999). Cont... (1750 words of this report)
