Abstracts

For attaining the success and development, the companies are required to implement an excellent system for managing all resources. The inventory management is an imperative function in all companies because it plays vital role in the success of the company. Diverse companies use diverse techniques of inventory management on the basis of type of company, nature and environment of the company (Muller, 2011). In this report, the two most important systems such as periodic inventory system and perpetual inventory system will be discussed in detail. The impact of using FIFO and WA on both systems will be highlighted. The nature and requirements of perpetual inventory system and periodic invent system will be discussed. The impact of these two systems on monetary statements and managerial decision making process will be evaluated in the last part of the report. All essential aspects of periodic inventory system and perpetual inventory system will be evaluated in detail in this report. (Continued...) Wordcount of report: 4000 words
