Abstracts

The most crucial and globalized issue of the current time that become cause of the killing of many people all around the world is smoking. On average almost 450,000 people on yearly basis lost their life just because of the smoking as smoking have bad effects on health that lead people finally to death. It is also known as slow poison that makes people to move towards death with slow movement. People initiate this dangerous habit because of the addiction, tension, social influence and there are many other causes of it. Smoking is not injurious for the people who smokes cigarette but it also influence other people sitting with the smoker. Smoking results in many dangerous diseases and it is a well known fact that it causes lung cancer, heart diseases, mouth cancer and several other disorders so then why people do not get rid of this habit? 85% of the teen ager in the America started smoking from the age of fifteen years and get addicted to the nicotine. There are many different causes of the smoking and the most prominent of them is the addiction to the substances used in cigarette, role of social media also a influencing cause of the smoking, social gathering and friends are another cause and there are so many other causes that make people to attracted towards the smoking and as a result they welcome several types of the social, ethical and health issues (Cdc, 2015). Smoking effects people in many ways as it disturb the mental condition of people, disturb their social and family life and influence health badly. Cont... (1000 words of this report)
