Abstracts

Intrinsic valuation is considered a means of examining as either the stock of the specific company is overvalued or undervalued. We analyze the intrinsic value for Allergen Plc and Agilent Technologies through the dividend discount model. The analysis show that the intrinsic value for the Allergen Plc is lower than the actual stock price in the market that is a sign of overvaluation while the intrinsic value for the Agilent Technology is higher than the actual share price for the stock that is indicating the undervaluation of the stock. So, the shares of the Agilent Technology are more suitable for investment with high opportunity of increase in worth in future in comparison of the stock of Allergen Plc. Cont...
