Abstracts

I am doing internship in a public school as a teacher of English. I teach English to the students of different classes in the school. Students find it difficult to learn, speak and write English as English is not the mother tongue of the students and they consider it difficult but most of the courses are in the English language that enhances the difficulties of the students. I observe the various difficulties of the students while learning English and I also ask the students to share as what type of the difficulties they are facing while learning English so that I can identify their issues and make efforts to provide the convenient way of learning the English. The issues that are identified are that the students face difficulties in learning, writing, reading, speaking and understanding the English. The students also find it difficult to learn the complicated grammar structure of the English language or to remember the different spellings. Self confidence is another issue identified in the students in relevance to the English. This report will consider all these issues as how it effect the students in the Kuwait at the school level and then I will conclude the report by suggesting some of the beneficial and useful recommendations for the students to make the English learning, writing and understanding convenient. Cont... (2000 words of this report)
