## Abstracts

Hewlett Packard considered as one of the biggest company in technology in the world. HP provides the information technology based solutions to their customers. The network of HP is spread in the whole world. After establishment the company expanded its business and includes personal computing and many other devices to its product line, it also provides printing and image services to its customers (Hau L, 1993). The company is currently operating in more than one hundred and seventy countries of the world. When we analyze the mission statement of the company we come to the point that main objective of the company is to provide information technology based solutions and it also provides assistance in completing their dreams related to the technology (Jason, 2005). The main ideology of the company is based on the creativity, HP always appreciates creativity in the company, and new ideas are warmly welcomed (Lin, 2000).(wordcount of report: 1000 words)
