

MicroRNA Market Trends 2011

<https://marketpublishers.com/r/M99177BF86CEN.html>

Date: September 2011

Pages: 139

Price: US\$ 1,655.00 (Single User License)

ID: M99177BF86CEN

Abstracts

This is the latest and most up-to-date Market Report from Select Biosciences addressing the microRNA research space. In this report, we focus upon the microRNA marketplace via primary market research that allows us to identify qualitative and quantitative trends from the bottom-up.

This report analyzes the microRNA marketplace from a market perspective describing the market trends operative in this space, quantitative penetrance of vendors in the microRNA products space [for research on microRNAs], a detailed analysis of publication trends in the microRNA field based on an analysis of more than 20,000 technical publications on microRNAs to identify research trends and “hotspots” of microRNA research.

Also presented in this report are detailed associations of microRNAs in various physiological as well as disease states including:

The Various Types of Cancer

Cardiovascular Disease

CNS Disorders

Hepatic Function and Disorders

Diabetes

Stem Cell Biology

The emerging field of microRNA biomarkers, microRNA diagnostics, and therapeutics

Serum microRNA biomarkers

microRNA Diagnostics-focused companies and pipeline

microRNA Therapeutics-focused companies and pipeline

This data-driven characterization of the microRNA landscape is a hands-on document that can be used for competitive benchmarking, business planning, and strategy development—all the data that have been collected in this industry analysis are presented and they form the basis for the conclusions drawn throughout the market report presented in a format enabling “drag-and-drop” into business presentations/business plans.

Extensive Market Analyses Presented in this Report:

MicroRNA Primary Market Data

Breakout of the microRNA Marketplace by Areas of Research Focus

Breakout of the microRNA Research Market by Types of Cancer Studied

Breakout of the microRNA Marketplace by Overall Segments of Research

Vendors Offering Products/Services to the microRNA Research Marketplace

Unmet Product Needs in the microRNA Research Marketplace

MicroRNA Isolation from Biological Samples: Market Trends, Unmet Needs

The non-coding RNA Research Marketplace

MicroRNA Research Marketplace

Market Size

Growth Rate

Market Projections

MicroRNA Associations with Physiological Situations and Various Disease Processes

Cancer

Hematological Cancers, Solid Tumors

Cancer Personalized Medicine

Breast Cancer

Lung Cancer

Prostate Cancer

Pancreatic Cancer

Normal Muscle Development and Vascular Diseases

Diabetes

CNS Normal Development and Diseases

Hepatic Physiology and Pathology

Stem Cells

Analysis of microRNA Focused Publications

MicroRNA Diagnostics and Therapeutics

microRNAs as Biomarkers

Serum microRNAs as Circulating Biomarkers

Companies Developing microRNA-based Diagnostics

Companies Developing microRNA-based Therapeutics

Contents

CHAPTER I. EXECUTIVE OVERVIEW

CHAPTER II. MICRORNA PRIMARY MARKET DATA

Scope of Dataset and Collection Methodology
Breakout of the microRNA Marketplace by Areas of Research Focus
Breakout of the microRNA Research Market by Types of Cancer Studied
Breakout of the microRNA Marketplace by Overall Segments of Research Across the Landscape
Vendors Offering Products/Services to the microRNA Research Marketplace: Quantitative Penetration into the Research Space Segmented by Offering
Breakout of the microRNA Research Market Segments by Products vs. Services Deployed
Top Methodologies for microRNA Expression Profiling
MicroRNA Up-/Down-Regulation
Unmet Product Needs in the microRNA Research Marketplace
MicroRNA Isolation from Biological Samples: Market Trends, Unmet Needs
The non-coding RNA Research Marketplace
Types of Diseases Studied
Market Segments focused Upon Currently
MicroRNA Research Marketplace
Market Size
Growth Rate
Market Projections

CHAPTER III. MICRORNA ASSOCIATIONS WITH PHYSIOLOGICAL SITUATIONS AND VARIOUS DISEASE PROCESSES

Cancer
Hematological Cancers, Solid Tumors
Cancer Personalized Medicine
Breast Cancer

Lung Cancer
Prostate Cancer
Pancreatic Cancer
Normal Muscle Development and Vascular
Diseases
Ischemia, Inflammation, Angiogenesis
Diabetes
CNS Normal Development and Diseases
Hepatic Physiology and Pathology
Stem Cells
Analysis of microRNA Focused Publications as a Means to Understand
Market Trajectory
Segments into which microRNA Publications
Segregate
microRNA Research Heat Maps

CHAPTER IV. MICRORNA DIAGNOSTICS AND THERAPEUTICS

microRNAs as Biomarkers
Serum microRNAs as Circulating Biomarkers
Companies Developing microRNA-based
Diagnostics
Companies Developing microRNA-based Therapeutics

APPENDIX I. RESEARCH METHODOLOGY

I would like to order

Product name: MicroRNA Market Trends 2011

Product link: <https://marketpublishers.com/r/M99177BF86CEN.html>

Price: US\$ 1,655.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/M99177BF86CEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:
Last name:
