Abstracts

Although department store was affected by other retail formats, especially the e-commerce, the department store industry still maintained a considerable scale and prospect. According to the annual operating data of 80 member companies of Chinese Commerce Association for General Merchandise (CCAGM), in 2015, the sales value of department stores reached CNY 439.765 billion, increasing by 9.30% over 2014. In 2015, the operating area of 80 members increased, reaching 13.32 million m², up by 10.42% YOY.

Despite the decreased economic growth rate, the consumption change is accelerating. Physical department stores are confronted with impacts from e-commerce and large business complex. Meanwhile, the industry has taken measures and many department store companies have set up online sales platforms or entered third party platforms. To combine online and offline modes is a reform on the single operation model, which not only gives full play to the strengths of high quality service of traditional department stores but also meets diversified demand of consumers.

In this report, CRI analyzes 21 department store enterprises listed in A-share market in China.

The report is composed of two parts: the first part is enterprise profiles and the second part is the operation status of these enterprises in the recent decade (presently 2006 to 2016, we will update it to the latest as time goes by).

The operation status is demonstrated from the following perspectives: (1) financial indexes, such as earnings per share, book value per share (BPS), sales per share, net cash flow per share, return on net worth and debt to asset ratio; (2) indexes on the

income statement, such as revenue, operating profit, net profit and EBIT; (3) indexes on the income statement, such as revenue, operating profit, net profit and EBIT; (4) indexes on the balance sheet, such as liquid asset, fixed asset, current liability, non-current liability, capital reserve and shareholders' equity.

(1) Financial Indexes

Earnings per Share

Book Value per Share (BPS)

Sales per Share (SPS)

Net Cash Flow per Share from Operations

Net Cash Flow per Share (CNY)

Return on Net Worth

Net Profit Margin on Total Assets

Return on Invested Capital (ROIC) (%)
