Abstracts

Environment and facility services include waste disposal, facility management and pollution control services.

The average net margin of China's environment service industry was over 18% in 2016. The revenue of the industry was more than CNY 300 billion. There are over 5,000 environment and facilities service providers in China, 70% of which are small companies with less than CNY 20 million of annual sales revenue.

According to CRI, the environmental protection industry has been developing fast given the severe environmental pollution in China. Policies of the Chinese government are supportive of the development of the industry. For example, in the Draft Program of the Thirteenth Five-year Plan (2016-2020), there are 26 social development indicators, among which 13 are related to resources and the environment. The Chinese government has also issued Action Plan for Air Pollution Prevention and Control, Action Plan for Water Pollution Prevention and Control and Action Plan for Soil Pollution Prevention and Control to control pollution and step up environmental protection. These policies are all in favor of the development of the environment and facility service industry. It is estimated that from 2017 to 2021, investment in environmental protection will be no less than CNY 2 trillion per year and the industry will keep growing at over 10% per year.

In this report, CRI analyzes 32 environment and facility service providers listed in A-share market in China.

The report is composed of two parts: the first part is enterprise profiles and the second part is the operation status of these enterprises in the recent decade (presently 2006 to

2016, we will update it to the latest as time goes by).

The operation status is demonstrated from the following perspectives: (1) financial indexes, such as earnings per share, book value per share (BPS), sales per share, net cash flow per share, return on net worth and debt to asset ratio; (2) indexes on the income statement, such as revenue, operating profit, net profit and EBIT; (3) indexes on the income statement, such as revenue, operating profit, net profit and EBIT; (4) indexes on the balance sheet, such as liquid asset, fixed asset, current liability, non-current liability, capital reserve and shareholders' equity.
