Abstracts

Description

Excavators are earthmoving machines digging materials below or above the bearing surface with buckets and loading them on trucks or unloading to the stockyard. Major excavated materials include soil, coal, sand as well as soil and rocks after preliminary loose. Excavators develop rapidly and become one of the major engineering machinery in construction in recent years.

The sales revenue of the construction industry increased from CNY 11,773.42 billion in 2011 to CNY 18,075.75 billion in 2015 with a declining annual growth rate, which is consistent with the overall economic trend in China.

The output volume of Chinese excavators decreased from 194.961 thousand in 2011 to 92.592 thousand in 2015 mainly for the saturation of the excavator market and the slump growth of new constructions.

According to CRI, major purchasers of excavators include construction units, mining ones and some individuals. With the yearly increase of manpower costs, most construction units use excavators instead of manpower to perform the mechanical work. The demand of the mining industry for excavators increases for rising manpower costs and personnel safety problems. Meanwhile, Chinese government speeds up the construction of urbanization and infrastructure. Most construction units outsource part of projects to individuals to reduce the investment in fixed assets and personnel, which also leads to a higher demand for engineering machinery like excavators.

Chinese government restructures the economy and supports the development of the construction machinery industry. In the process of urbanization, the construction and planning of infrastructures increase the demand for excavators as well. The excavator

manufacturers improve the procurement industry chain in the globe, which effectively enhances the development of the overall market.

In terms of competition, brands of Japan and South Korea dominated Chinese excavator market before 2010, which was followed by that of Europe, the U.S.A. and China. However, the market structure transferred from 2010 to 2015, and Chinese brands became dominants while market shares of Europe and the U.S.A. brands shrank and Japan and South Korea Brands lost major shares. Meanwhile, excavators of Chinese brands remain dominants. According to CRI, the aggregate market shares of the sales volume of top 5 excavator manufacturers was about 50% in China in 2015, while there was certain development space of this market for some small and medium-sized enterprises.

In terms of product structure, the sales volume of mini-excavators increased rapidly from 2013 to 2015 and will continue to grow in the future. The sales volume of medium-sized excavators decreased while that of large-scale ones remained stable, which will continue in the future.

As Chinese government increases the investment in the western region development and infrastructure construction, the sales volume of excavators increases accordingly while that remains stable in the central regions and decreases in the eastern regions, which will continue for a while.

CRI estimates that excavator products will occupy certain advantages in the global market and the export volume is expected to grow due to the complete industry chain in China in the next few years. Meanwhile, Chinese government increases the investment in the high speed rail, urban transit and municipal engineering to promote the development of the economy and the excavator industry in China.

Through this report, the readers can acquire the following information:

Definition and Classification of Excavators

Research Methods of the Report

Analysis on Supply and Demand in Excavator Industry in China

Analysis on Export of Excavators in China

Competition of Excavator Industry in China

Analysis on Top 5 Enterprises in Excavator Industry in China

Development Opportunities and Driving Forces Faced by Excavator Industry in China

Risks and Challenges in Development of Excavator Industry in China

Production Costs and Prices of Excavators in China, 2013-2015

Prediction on Development of Excavator Industry in China, 2016-2020

Contents

1 RELEVANT CONCEPTS OF EXCAVATOR INDUSTRY

1.1 Definition and Classification of Excavators

1.1.1 Definition of Excavators

1.1.2 Classification of Excavators

1.2 Research Methods of the Report

1.2.1 Assumption Base

1.2.2 Data Sources

1.3 About CRI

2 ANALYSIS ON EXCAVATOR INDUSTRY IN CHINA, 2011-2015

2.1 Development Environment of Excavator Industry in China

2.1.1 Economic Environment

2.1.2 Policy Environment of Excavator Industry in China

2.1.3 Social Environment

2.2 Analysis of Supply

2.3 Analysis on Market Demand for Excavators in China

2.3.1 Major Purchasers of Excavators

2.3.2 Market Size

2.4 Analysis on Export of Excavators in China

3 COMPETITION STATUS OF EXCAVATOR MANUFACTURING INDUSTRY IN CHINA, 2013-2015

3.1 Barriers to Entry in Excavator Industry in China

3.1.1 Policy Barriers

3.1.2 Barriers of Sales Channels

3.1.3 Brand Barriers

3.1.4 Technical Barriers

3.2 Competition Structure of Excavator Manufacturing Industry in China

3.2.1 Bargaining Ability of Upstream Excavator Suppliers

3.2.2 Bargaining Ability of Excavator Consumers

3.2.3 Internal Competition of Excavator Industry

3.2.4 Potential Entrants of Excavator Industry

3.2.5 Substitutes of Excavators

4 TOP 5 EXCAVATOR MANUFACTURERS IN CHINA, 2013-2015

4.1 Sany Heavy Industry Co., Ltd.

4.1.1 Enterprise Profile of SANY Group Co., Ltd.

4.1.2 Sales Revenue and Market Share of SANY Group Co., Ltd.

4.2 Caterpillar (China) Investment Co., Ltd.

4.2.1 Enterprise Profile

4.2.2 Sales Revenue and Market Share

4.3 XCMG Construction Machinery Co., Ltd.

4.3.1 Enterprise Profile of XCMG Construction Machinery Co., Ltd.

4.3.2 Sales Revenue and Market Share

4.4 Chengdu KOBÉ Construction Machinery Co., Ltd.

4.4.1 Enterprise Profile of Chengdu KOBÉ Construction Machinery Co., Ltd.

4.4.2 Sales Revenue and Market Share of Chengdu KOBÉ Construction Machinery Co., Ltd. in China

4.5 Komatsu (China) Investment Co., Ltd.

4.5.1 Enterprise Profile of Komatsu (China) Investment Co., Ltd.

4.5.2 Sales Revenue and Market Share of Komatsu (China) Investment Co., Ltd.

5 ANALYSIS ON COST OF RAW MATERIALS AND RETAIL PRICES IN EXCAVATOR INDUSTRY IN CHINA, 2013-2015

5.1 Analysis on Manufacturing Costs of Excavators, 2013-2015

5.2 Analysis on Excavator Prices in China, 2013-2015

6 PREDICTION ON DEVELOPMENT OF EXCAVATOR INDUSTRY IN CHINA, 2016-2020

6.1 Factors Influencing Development of Excavator Industry in China

6.1.1 Major Driving Forces and Market Opportunities in Excavator Industry in China

6.1.2 Risks and Challenges in Excavator Industry

6.2 Prediction on Supply in Excavator Industry in China

6.2.1 Prediction on Output Volume of Excavators in China, 2016-2020

6.2.2 Prediction on Product Structure

6.3 Forecast on Demand
