Description

According to statistics, the incidence of rheumatoid arthritis (RA) is 0.2%-0.36% and the number of cases is 5-10 million in China. And it works well in rheumatism, RA, early healing of fracture, osteoarthritis, pain in waist and lower extremities as well as wound recovery.

Cervus and cucumis polypeptide develops fast after entering China, annual sales value rising from less than CNY 10 million in 2006 to CNY 310 million in 2014 and CAGR during this period exceeding 50%. Currently, cervus and cucumis polypeptide in the Chinese market all come from the following three companies: Gloria Pharmaceuticals Co., Ltd, Heilongjiang Dilong Pharmaceutical Co., Ltd and Heilongjiang Jiangshi Pharmaceutical Co., Ltd, among which Gloria Pharmaceuticals Co., Ltd has the largest market share of over 80% for sales value in 2014.
