Abstracts

Neuropathic pain is caused by damage or pathological changes of nervous system. Its main features are dull pain, aestus and tingling. About 1% of people worldwide have neuropathic pain. Epileptic seizures are the result of excessive and abnormal cortical nerve cell activity in the brain. It is a group of long-term neurological disorders. As a chronic disease, epilepsy can seriously damage patients' mental and physical health and become a huge burden for their families and the society. According to WHO, the global number of epilepsy patients is higher than 50 million and over 9 million of them are in China.

Pfizer Co., Ltd. submitted registration application for Pregabalin (produced by Pfizer with the trade name "Lyrica") in the U.S. in 2003. In December 2004 pregabalin was approved by FDA to treat diabetic neuropathic pain and postherpetic neuralgia. It is the first drug approved to treat both the two diseases in the U.S.A. and in Europe. In June 2005, pregabalin was approved to be used in the adjuvant treatment of adults with partial-onset seizures in epilepsy. After that, it was approved to treat generalized anxiety disorder and fibromyalgia syndrome successively. Time Magazine named pregabalin as one of the "Top 10 Medical Progress" in 2007. Total revenue of pregabalin is more than USD 20 billion. The global sales revenue of Lyrica was approximately USD 4.16 billion, increased by 13% YOY.

In 2010 Lyrica was approved to China. According to CRI's market investigation, the sales revenue of Lyrica in Chinese sample hospital market grew over 100 times from 2010 to 2013. Due to Lyrica's success, many pharmaceutical manufacturers in China begin to apply for pregabalin production. Chongqing Succeway Pharmaceutical Co., Ltd. received production license in 2013. Lyrica produced by Pfizer is expected to be the main product in Chinese market in recent years. However, its market share will decline

in 2014 due to competition from relatively cheap homemade drugs.

Based on its development in the past, incidence of epilepsy is doomed to increase, which leads to a bright future for pregabalin market in China.

Through this report, the readers can acquire the following information:

Sales price of Pregabalin in Hospital Market in China

Major Pregabalin Manufacturers in China

Patent Status of Pregabalin in China

Share of Pregabalin in Different Dosage Forms in China Hospital Market

The following enterprises and people are recommended to purchase this report:

Antiepileptic Drug Manufacturers

Investors /Research Agencies Focusing on Nervous System Drug Market

Contents

1 RELEVANT CONCEPTS OF PREGABALIN

- 1.1 Development Process and Indication
- 1.2 Sales Status on the Global Market

2 MARKET OVERVIEW OF PREGABALIN IN CHINA, 2010-2013

- 2.1 Process of Pregabalin into China
- 2.2 Major Manufacturers
- 2.3 Patent Status
- 2.4 Investigation on Market Size

3 INVESTIGATION ON SALES VALUE OF PREGABALIN IN CHINA, 2010-2013

- 3.1 Total Sales Value
- 3.2 Sales Value by Region

4 INVESTIGATION ON MARKET SHARE OF MAJOR PREGABALIN MANUFACTURERS IN CHINA, 2010-2013

5 INVESTIGATION ON MARKET SIZE OF PREGABALIN BY DOSAGE FORM IN CHINA, 2010-2013

6 REFERENCE PRICE PREGABALIN IN CHINA HOSPITAL MARKET, 2014

7 MAJOR MANUFACTURING ENTERPRISES IN CHINA PREGABALIN MARKET, 2010-2014

- 7.1 Pfizer Deutschland GmbH
- 7.2 Chongqing Succeway Pharmaceutical Co., Ltd.

8 PROSPECT OF CHINA PREGABALIN MARKET, 2014-2018

- 8.1 Trend of Epilepsy Incidence in China
- 8.2 Status of Generic Drug
- 8.3 Forecast on Market Size
- 8.4 Forecast on Competition Pattern
