

# Report on Operations of China's Basic Chemical Raw Materials Industry 2010

<https://marketpublishers.com/r/RB0F5287C72EN.html>

Date: April 2011

Pages: 20

Price: US\$ 1,200.00 (Single User License)

ID: RB0F5287C72EN

## Abstracts

In January-November 2010, the accumulative products sales revenue of China's basic chemical raw materials manufacturing Industry reached CNY 1,130.40 billion, increasing by 37.13% YOY at the rate rising by 38.39% over the same period of 2009. At the end of November, the assets of China's basic chemical raw materials manufacturing industry totaled CNY 1,066.51 billion, increasing by 21.25% at the rate rising by 7.42% over the same period of last year.

Seen from production and sales, the industry output value and major products' output of China's basic chemical raw materials manufacturing industry continued increasing and the market operation was overall stable in 2010. In January-November 2010, the accumulative industrial sales output value was CNY 1,121.27 billion, increasing by 36.15% at the rate rising by 35.73% over the same period of 2009.

Seen from the profitability, influenced by the bases of the same period of last year, in 2010, the profit of basic chemical engineering industry in the first three quarters presented quarterly declined growth and saw a substantial growth in the fourth quarter. In January-November 2010, the accumulative profits of China's basic chemical raw materials manufacturing industry totaled CNY 59.16 billion, increasing by CNY 33.50 billion over the same period of 2009.

The growth capability of China's basic chemical raw materials manufacturing industry was significantly improved and the growth rate of the sales revenue was 37.13%, increasing by 38.39% over the same period of 2009; the growth rate of total assets was 21.25% increasing by 7.42% over the same period of 2009; the capital maintenance and appreciation rate was 116.68%, increasing by 11.75% over the same period of 2009.

In 2010, under the influence of the price rise of raw materials, favorable macroeconomic expectations and other factors, the operation capability of China's basic chemical raw materials manufacturing industry improved steadily. In January-November, the turnover rate of total assets of the industry was 105.99%, increasing by 12.48% over the same period of 2009; the floating assets turnover rate was 2.71 times, increasing by 0.18 times over the same period of 2009; the finished products turnover rate was 25.80 times, increasing by 7.56 times over the same period of 2009.

In early 2011, the emission standards of China's sulfuric acid and nitric acid industry were issued at the same time, and the new standards will forcibly regulate the pollution discharge behavior of the enterprises, which are of important significance to the promotion of progress of production process and pollution control technology. In addition, the two standards stipulate the special emission limits of water and air pollutants, which will provide the basis for the enforcement of more strict emission standards for a part of the regions in the future.

Through this report, readers may obtain the following more information:

Operations of China's basic chemical raw materials industry

Operations of sulfuric acid, nitric acid, sodium hydrate and other sub-industries

Import and export of China's basic chemical raw materials

Operations of basic chemical raw materials by Region

Hot events of basic chemical raw materials industry

Following persons are recommended to buy this report:

Basic chemical raw materials manufacturers

Basic chemical raw materials trade enterprises

Research institutes and investors paying attention to sulfuric acid, nitric acid and sodium hydrate industries

## Contents

### **1 OPERATIONS OF CHINA'S BASIC CHEMICAL RAW MATERIALS MANUFACTURING INDUSTRY, 2010**

- 1.1 Scale
- 1.2 Production and Sales
- 1.3 Profitability

### **2 PRODUCTION OF MAJOR PRODUCTS OF CHINA'S BASIC CHEMICAL RAW MATERIALS MANUFACTURING INDUSTRY, 2010**

- 2.1 Sulfuric Acid
- 2.2 Concentrated Nitric Acid
- 2.3 Hydrochloric Acid
- 2.4 Sodium Hydrate
- 2.5 Sodium Carbonate
- 2.6 Calcium Acetylde (Calcium Carbide)
- 2.7 Ethylene
- 2.8 Pure Benzene
- 2.9 Refined Methanol
- 2.10 Glacial Acetic Acid

### **3 IMPORT AND EXPORT OF MAJOR BASIC CHEMICAL RAW MATERIALS PRODUCTS, 2010**

- 3.1 Sulfuric Acid and Fuming Sulfuric Acid
- 3.2 Nitric Acid and Methyl Nitrate
- 3.3 Hydrogen Chloride and Hydrochloric Acid
- 3.4 Sodium Carbonate
- 3.5 Ethylene
- 3.6 Benzene
- 3.7 Methanol

### **4 OPERATIONS OF CHINA'S BASIC CHEMICAL RAW MATERIALS INDUSTRY BY REGION, 2010**

- 4.1 Industry Operations by Region
  - 4.1.1 Product Sales Revenue

- 4.1.2 Profit
- 4.2 Production by Region
- 4.1 Sulfuric Acid
- 4.2 Concentrated Nitric Acid
- 4.3 Hydrochloric Acid
- 4.4 Sodium Hydrate
- 4.5 Sodium Carbonate
- 4.6 Calcium Acetylde (Calcium Carbide)
- 4.7 Ethylene
- 4.8 Pure Benzene
- 4.9 Refined Methanol
- 4.10 Glacial Acetic Acid

## **5 COMPETITION OF CHINA'S BASIC CHEMICAL RAW MATERIALS INDUSTRY, 2010**

### **6 HOT EVENTS**

- 6.1 Ministry of Commerce of China: Anti-dumping Measures on Imported Phenol Extend for Five Years
- 6.2 Determination on Clean Production Technology Implementation Proposals of Seventeen Chemical Engineering Sub-industries
- 6.3 China Extends Duration of Methanol Anti-dumping Investigations
- 6.4 Chlorine and Alkali Industry Will Strictly Control the Total Volume in "Twelfth Five-year Plan (2011-2015)" Period
- 6.5 Emission standards of China's Sulfuric Acid and Nitric Acid Industry Issued at the Same Time
- 6.6 Chinese Government Issues Entry Conditions for Polysilicon Industry

## Selected Charts

### SELECTED CHARTS

Chart Industry Scale of China's Basic Chemical Raw Materials Manufacturing Industry, 2010

Chart Production and Sales of China's Basic Chemical Raw Materials Manufacturing Industry, 2010

Chart China's Sulfuric Acid Output, 2006-2010

Chart China's Concentrated Nitric Acid Output, 2006-2010

Chart China's Sulfuric Acid and Fuming Sulfuric Acid Export, 2006-2010

Chart China's Sulfuric Acid Output by Region, 2010

Chart China's Sodium Hydrate Output by Region, 2010

## I would like to order

Product name: Report on Operations of China's Basic Chemical Raw Materials Industry 2010

Product link: <https://marketpublishers.com/r/RB0F5287C72EN.html>

Price: US\$ 1,200.00 (Single User License / Electronic Delivery)
