Abstracts

Glass and the processed products are widely used in construction, transportation, decoration, electronic information, solar energy utilization and other emerging industries. Among them, about 70% of the float glass is used in construction and decoration fields. Applications of glass in automobile and new energy fields also gradually expand. The glass industry is a resource and energy-dependent raw material industry in the national economy. Both changes in upstream raw materials and evolution of downstream demand industries of glass will influence prices of glass.

By the end of 2011, there were 3,344 glass and glass product manufacturing enterprises in China. The total asset of the industry was CNY 510.59 billion, with an increase of 22.52% YOY.

With the rapid development of China's economy, the glass industry also rapidly develops. China is a major producing country of glass, and the output of flat glass ranks the first worldwide for 20 consecutive years, accounting for over 50 % of the global output. Due to the generally low technical levels of China's glass products, the main share of global glass market is still monopolized by international giants such as Asahi Glass and Nippon Sheet Glass of Japan, Saint-Gobain of France and Guardian of the United States. The export amount of China's glass is relatively low annually.

In 2011, the output of China's domestic glass products reached 13,736,800 tons, with an increase of 11.94% YOY; the output of flat glass reached 738 million weight cases (about 50 kilograms per weight case), with an increase of 15.84% YOY; the output of laminated glass was 59,786,900 square meters, with an increase of 23.20% YOY; the output of toughened glass was 265 million square meters, with an increase of 22.45% YOY.

In 2011, the export amount of major products of China's glass and glass product

industry was USD 4.294 billion, with an increase of 17.76%.

China's glass consuming market can be divided into four main sections. The primary is the real estate market, accounting for about 75% of the total glass consumption nationwide; the second is the automobile industry, accounting for 10% of the total nationwide; export ranks the third, accounting for 5% of the total nationwide; the rest 10% is mainly applied in fields of new energy industries such as solar energy, electronics, instrumentation, lamps and crafts. In recent years, changes in supply and demand of real estate and automobile markets are relatively large, which also accordingly leads to changes in prices of glass. Over 80% of the flat glass is mainly applied in fields of real estate, automobile manufacture, etc. The periodicity of these two industries is substantially prominent, which leads to remarkable cyclical characteristics in demand for flat glass.

With the upgrade of Chinese residents' consumption structure and the acceleration of urbanization process, the growth trend in the medium and long-term demand of Chinese market for glass products will continue. With the development of China's construction, automobile, decoration, information technology and other industries as well as increasing requirements of people for space and environment of living, safety glass, energy-saving insulating glass and other functional processed products are widely applied. Supply & demand pattern and consumption structure of China's glass are changing.

More following information can be acquired through this report:

Development Status of China's Glass Industry

Prediction on Development of China's Glass Industry

Market Competition of China's Glass Industry

Important Enterprises and Their Operations of China's Glass Industry

Existing Investment Opportunities of China's Glass Industry

Contents

CHAPTER 1 BASIC SITUATION OF GLASS INDUSTRY

1.1 Definition and Classification
  1.1.1 Definition
  1.1.2 Classification
1.2 Major Products
  1.2.1 Product Classification
  1.2.2 Application Fields of Major Products
1.3 Status of Glass Manufacturing in China's Economy

CHAPTER 2 DEVELOPMENT ENVIRONMENT OF CHINA'S GLASS INDUSTRY, 2011-2013

2.1 Macroeconomic Environment
  2.1.1 Domestic Economic Environment
  2.1.2 International Economic Environment
2.2 Policy Environment of China's Glass Industry, 2011-2013
  2.2.1 Overview of Industrial Policies
  2.2.2“12th Five-Year (2011-2015)” Planning
2.3 Technical Levels and Trends of the Industry
  2.3.1 Status Quo of Glass Technics
  2.3.2 Directions of Glass Technic Progress

CHAPTER 3 OPERATION OF CHINA'S GLASS INDUSTRY, 2011

3.1 Analysis and Prediction on Supply
  3.1.1 Total Supply
  3.1.2 Supply Structure
  3.1.3 Supply Prediction
3.2 Analysis and Prediction on Demand
  3.2.1 Total Demand
  3.2.2 Demand Structure
  3.2.3 Demand Prediction
3.3 Analysis on Import & Export of China's Glass Industry, 2011-2012
  3.3.1 Import
  3.3.2 Export
3.4 Investment & Financing of China's Glass Industry, 2011-2012

3.4.1 Fixed Asset Investment
3.4.2 M&A

CHAPTER 4 COMPETITION AND DEVELOPMENT CHARACTERISTICS OF CHINA'S GLASS INDUSTRY, 2011-2013

4.1 Competition in the Industry
4.1.1 Barriers to Entry
4.1.2 Barriers to Exit
4.1.3 Access Conditions
4.2 Competition Structure of the Industry
4.2.1 Competition Among Existing Enterprises
4.2.2 Upstream Suppliers
4.2.3 Downstream Users
4.2.4 Potential Entrants
4.2.5 Substitutes
4.3 Economic Cycle of the Industry

CHAPTER 5 ANALYSIS ON INDUSTRY CHAIN OF CHINA'S GLASS INDUSTRY, 2011-2013

5.1 Industry Chain of Glass Industry
5.1.1 Overview of Industry Chain
5.1.2 Factors Influencing Industry Chain
5.2 Analysis on Upstream Industries of Glass Industry
5.2.1 Sodium Carbonate Industry
5.2.2 Crude Oil and Natural Gas
5.2.3 Power Industry
5.3 Downstream Industries of Glass Industry
5.3.1 Real Estate Industry
5.3.2 Automobile Industry

CHAPTER 6 ANALYSIS ON SUB-INDUSTRIES OF CHINA'S GLASS INDUSTRY, 2011-2013

6.1 Introduction of Each Sub-industry
6.2 Flat Glass Manufacturing
6.2.1 Industry Scale
6.2.2 Supply and Demand

6.2.3 Development Trend
6.3 Technical Glass Industry
6.4 Glass Fiber Industry
6.5 Domestic Glass Industry
6.6 Comparison in Sub-industries
6.6.1 SWOT
6.6.2 Operation Comparison in Sub-industries

CHAPTER 7 ANALYSIS ON REGIONAL DEVELOPMENT OF GLASS INDUSTRY, 2011

7.1 Overall Analysis and Prediction on Regional Distribution of Glass Industry
7.1.1 Distribution of Producing Areas
7.1.2 Distribution of Industry Scales
7.1.3 Distribution of Benefits
7.2 Industry Layout
7.2.1 Mainly Distributed in Coastal Areas of East China and South China
7.2.2 Layout Planning
7.3 Development Analysis on Key Regions of China's Glass Industry
7.3.1 Hebei
7.3.2Jiangsu
7.3.3 Liaoning

CHAPTER 8 TOP 10 ENTERPRISES OF CHINA'S GLASS MANUFACTURING, 2012-2013

8.1 Jiangsu Farun Group Co., Ltd.
8.1.1 Company Profile
8.1.2 Company Operations
8.2 Taiwan Glass Group
8.3 China Glass Holdings Limited
8.4 CSG Holding Co., Ltd.
8.5 Zhejiang Glass Company Limited
8.6 Xinyi Glass Holdings Limited
8.7 Jinjing Science & Technology Stock Co., Ltd.
8.8 Fuyao Glass Group Industries Co., Ltd.
8.9 Hebei Shahe Anquan Industry Limited Company
8.10 Zhuzhou Kibing Group Co., Ltd.

CHAPTER 9 PREDICTION ON DEVELOPMENT OF CHINA'S GLASS INDUSTRY, 2013-2017

9.1 Analysis on Factors Influencing Development of the Industry
  9.1.1 Economic Environment
  9.1.2 Policy Environment
  9.1.3 Market Supply and Demand
9.2 Prediction on Development Trend
  9.2.1 Overall Prediction
  9.2.2 Prediction on Demand of Sub-industries
9.3 Recommendations on Development and Investment
