

# Research Report on China's Ion Implanter Import 2023-2032

<https://marketpublishers.com/r/R80DE1871416EN.html>

Date: December 2022

Pages: 40

Price: US\$ 3,000.00 (Single User License)

ID: R80DE1871416EN

## Abstracts

Silicon can function as a semiconductor only after adding the right amount of impurities to change its structure and electrical properties, a process known as doping. Ion implanter is the only method that can precisely control the doping and can repeatedly control the concentration and depth of doping, and is the mainstream technology of doping process for chip manufacturing. Ion implanters can be broadly classified into High Current Ion Implanter, Medium Current Ion Implanter and High Energy Ion Implanter.

Due to the difficulty of technology development, Chinese local enterprises are not yet able to produce enough ion implanters to meet the needs of China's IC manufacturing industry, so China needs to import a considerable number of ion implanters every year.

In 2021, China imported 384 units of ion implanter, up 66.96% year-on-year, with an import value of US\$913 million, up 48.35% year-on-year. From January to October 2022, China imported 2,350 units of ion implanter, up 648.41% year-on-year, with an import value of US\$885 million, up 22.80% year-on-year.

CRI analysis, from 2018-2022, China's ion implanter import price shows an overall change trend of first increase and then decrease. In 2018-2020, China's ion implanter imports average price increases continuously, from US\$2,087,200 per unit in 2018 to US\$2,675,100 per unit in 2020. In 2021-2022, the average price of China's ion implanter imports decreases continuously. From January to October 2022, the average price of China's ion implanter imports is US\$ 376,700 per unit, down 83.59% year-on-year.

The source of China's ion implanter imports is more concentrated. In 2021, China

imported ion implanter from seven countries and regions, including the U.S., Japan, South Korea, Singapore, the U.K., Taiwan, China, and France. According to CRI's analysis, the U.S. is the largest importer of ion implanters in China. In 2021, China imported 234 units of ion implanters from the U.S., accounting for 60.94% of the total ion implanters imported in that year, with an import value of US\$611 million, accounting for 66.89% of the total import value.

CRI expects that in the short term, it will be difficult for locally manufactured semiconductor equipment such as ion implanters in China to cover all the needs of Chinese chip companies, so China's ion implanters imports are expected to continue to rise in the 2023-2032 period.

Topics covered:

China's Ion Implanter Import Status and Major Sources in 2018-2022

What is the Impact of COVID-19 on China's Ion Implanter Import?

Which Companies are the Major Players in China's Ion Implanter Import Market and What are their Competitive Benchmarks?

Key Drivers and Market Opportunities in China's Ion Implanter Import

What are the Key Drivers, Challenges, and Opportunities for China's Ion Implanter Import during 2023-2032?

What is the Expected Revenue of China's Ion Implanter Import during 2023-2032?

What are the Strategies Adopted by the Key Players in the Market to Increase Their Market Share in the Industry?

What are the Competitive Advantages of the Major Players in China's Ion Implanter Import Market?

Which Segment of China's Ion Implanter Import is Expected to Dominate the Market in 2032?

What are the Major Adverse Factors Facing China's Ion Implanter Import?

## Contents

### **1. 2018-2022 CHINA ION IMPLANTERS IMPORT ANALYSIS**

- 1.1. China's Ion Implanters Import Scale
  - 1.1.1. China's Ion Implanters Import Volume
  - 1.1.2. China Import Value of Ion Implanters
  - 1.1.3. Import Price of Ion Implanters in China
  - 1.1.4. Apparent Consumption of Ion Implanters in China
  - 1.1.5. Import Dependence of Ion Implanters in China
- 1.2. China's Main Import Sources of Ion Implanters
  - 1.2.1. By Import Volume
  - 1.2.2. By Import Value

### **2. 2018-2022 CHINA IMPORT ANALYSIS OF HIGH CURRENT ION IMPLANTERS**

- 2.1. Import of High Current Ion Implanters
- 2.2. Import Value of High Current Ion Implanters
- 2.3. Import Price of High Current Ion Implanters
- 2.4. Import Dependence of High Current Ion Implanters
- 2.5. Import Analysis of Various Types of High Current Ion Implanters
  - 2.5.1. Import Volume of High Current Ion Implanters by Type
  - 2.5.2. Import Value of High Current Ion Implanters by Type
  - 2.5.3. Import Price of High Current Ion Implanters by Type
- 2.6. Import Sources of High Current Ion Implanters
  - 2.6.1. By Import Volume
  - 2.6.2. By Import Value

### **3. 2018-2022 CHINA IMPORT ANALYSIS OF MEDIUM CURRENT ION IMPLANTERS**

- 3.1. Import of Medium Current Ion Implanters
- 3.2. Import Value of Medium Current Ion Implanters
- 3.3. Import Price of Medium Current Ion Implanters
- 3.4. Import Dependence of Medium Current Ion Implanters
- 3.5. Import Analysis of Medium Current Ion Implanters by Type
  - 3.5.1. Import Volume of Medium Current Ion Implanters by Type
  - 3.5.2. Import Value of Medium Current Ion Implanters by Type
  - 3.5.3. Import Price of Medium Current Ion Implanters by Type
- 3.6. Import Sources of Medium Current Ion Implanters

3.6.1. By Import Volume

3.6.2. By Import Value

#### **4. 2018-2022 CHINA IMPORT ANALYSIS OF HIGH ENERGY ION IMPLANTERS**

4.1. Import Volume of High Energy Ion Implanters

4.2. Import Value of High Energy Ion Implanters

4.3. Import Price of High Energy Ion Implanters

4.4 Import Dependence of High Energy Ion Implanters

4.5 Import Analysis of Various Types of High Energy Ion Implanters

4.5.1. Import Volume of Various Types of High Energy Ion Implanters

4.5.2. Import Value of Various Types of High Energy Ion Implanters

4.5.3. Import Price of Various Types of High Energy Ion Implanters

4.6. Import Sources of High Energy Ion Implanters

4.6.1. By Import Volume

4.6.2. By Import Value

#### **5. 2018-2022 CHINA ION IMPLANTERS MAJOR IMPORT SOURCES ANALYSIS**

5.1. U.S. Ion Implanters Import Analysis

5.2. Japan Ion Implanters Import Analysis

5.3. South Korea Ion Implanters Import Analysis

5.4 Singapore Ion Implanters Import Analysis

5.5 United Kingdom Ion Implanters Import Analysis

5.6 China Taiwan Ion Implanters Import Analysis

5.7 France Ion Implanters Import Analysis

5.8. Other Ion Implanters Import Analysis

#### **6. 2023-2032 OUTLOOK FOR CHINA'S IMPORT OF ION IMPLANTERS**

6.1 Factors Affecting the Import of Ion Implanters in China

6.1.1 Favorable Factors

6.1.2. Unfavorable Factors

6.2. Import Forecast of Ion Implanters in China, 2023-2032

6.2.1. Import Volume Forecast

6.2.2. Forecast of Main Import Sources

6.2.3. Major Import Types of Ion Implanters Forecast

## I would like to order

Product name: Research Report on China's Ion Implanter Import 2023-2032

Product link: <https://marketpublishers.com/r/R80DE1871416EN.html>

Price: US\$ 3,000.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/R80DE1871416EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:  
City:  
Zip code:
