Abstracts

To help global insecticide manufacturers, exporters, pesticide distributors, traders and related chemical companies efficiently expand into the Vietnamese market, CRI releases the 'Vietnam Abamectin Insecticide Import Guide 2023-2026.' The guide provides an overview of the Vietnamese abamectin Insecticide industry, import market, and import company information for the period.

The types of importing companies are diverse, including large agricultural groups, regional distributors of agricultural inputs, pesticide traders and key end buyers etc. This guide features the top 10 importing companies, including company profiles, contact information, and important information such as import volume, value, price, import resources, and major suppliers for 2023-2026 (including Excel data source).

The publication of the 'Vietnam Abamectin Insecticide Import Guide 2023-2026' aims to provide abamectin insecticide exporters with precise customer acquisition channels, helping them expand into the Vietnamese market more efficiently. It also provides valuable decision-making insights for international trading companies and investment institutions, helping them optimize their regional supply chain strategies. This guide will help suppliers stay abreast of market trends in Vietnam, mitigate potential risks and enhance their international competitiveness.

Industry Overview

Abamectin, an insecticide, is a significant subcategory of highly effective bio-based insecticides/acaricides. It primarily acts on the nervous system of pests, characterized by high efficiency, low dosage, and broad coverage against a wide range of pests. Common formulations include EC, SC (suspension concentrate), and WG (water-

dispersible granules), and it is widely used in crops such as rice, vegetables, fruit trees, coffee, pepper, and tea. It is a commonly used variety in Vietnam's cash crops and greenhouse agriculture.

Vietnamese agriculture relies heavily on export-oriented cash crops. The tropical and subtropical climate leads to high frequencies of pests and diseases, creating a persistent demand for highly effective and fast-acting pesticides. Abamectin is highly effective against mites and lepidopteran larvae, making it particularly suitable for precision pest control in vegetables, fruit trees, and high-value-added crops.

As farmers increasingly prioritize control efficiency, cost management, and pesticide safety, abamectin formulations continue to solidify their position in the low-toxicity, low-residue pesticide mix, with market demand remaining relatively stable and undergoing structural upgrades.

The industry supply exhibits a typical model of 'imported active ingredients + locally produced formulations.' While there are numerous local agrochemical companies, they are generally small in scale, and market competition revolves around brand, channel coverage, and price.

Against the backdrop of increasingly stringent regulations and the optimization of agricultural pesticide use, companies with compliance capabilities, channel advantages, and compounding technologies are more likely to achieve sustainable development in the industry.

Import Market Overview

The import market for abamectin insecticide is growing rapidly in Vietnam.

According to CRI analysis, as Vietnamese agriculture gradually shifts towards export-oriented and refined management, the use of abamectin insecticides in cash crops and greenhouse agriculture remains at a high level, forming a stable base of import demand.

According to CRI statistics, approximately 130 buyers in Vietnam imported abamectin insecticide in 2024, totaling US\$ 18.58 million, an increase of 10.8% year-on-year. In 2025, Vietnam's total abamectin insecticide imports reached US\$ 25.30 million, a 36.2% increase compared to the same period in 2024.

China is Vietnam's largest source of abamectin insecticide imports.

According to CRI analysis, China was the largest source of Vietnam's abamectin insecticide imports, accounting for approximately 99.9 of total imports in 2025.

CRI predicts that Vietnam's imports of abamectin insecticides will continue to rise steadily in the future, driven by factors such as agricultural modernization, the promotion of facility agriculture, the promotion of environmentally friendly pesticide policies, and the increasing demand for low-toxicity products.

Overview of Foreign Investment in Vietnam's Abamectin Insecticide Industry

Investment Background Vietnam's agriculture is primarily export-oriented, focused on cash crops, and its tropical climate leads to high rates of pests and diseases. With increasing environmental and pesticide safety requirements, the market is rapidly shifting from traditional, highly toxic pesticides to low-toxicity, low-residue, and highly effective biological pesticides.

With the promotion of greenhouse agriculture and precision farming, the application of abamectin formulations in pest and disease control systems continues to rise, driving stable demand for both imported formulations and local supply. This provides a clear and sustainable investment foundation for foreign companies entering this niche market.

Investment Advantages

1. Political stability and rapid economic development. The Vietnamese government has strong governing capabilities, consistent policies, and a focus on economic development and improving people's livelihoods.
2. Relatively low labor costs.
3. Strategically located in the eastern part of the Indochina Peninsula, with a 3,260-kilometer coastline and numerous ports, transportation is convenient.
4. Relatively relaxed policies and regulations provide foreign investors with comprehensive legal protections and generous preferential policies.
5. Vietnam has a high level of openness to the outside world, with 19 free trade agreements signed or in progress. Investors can use platforms such as RCEP and the China-ASEAN Free Trade Area to explore a broader international market.

Investment Regulations

According to Vietnam's Investment Law and other regulations, pesticide production in Vietnam is a conditional investment sector, but there are no absolute restrictions on

foreign investment. Foreign investors can establish wholly foreign-owned enterprises or joint ventures with local companies in accordance with the Investment Law and the Enterprise Law. Before establishing a project, foreign investors must complete necessary procedures such as investment registration, company registration, and land use approval, and obtain registration and permits related to pesticide production and sales from the agricultural authorities.

Guide Highlights:

Comprehensive Coverage:

This directory includes major importers in Vietnam, including large agricultural groups, regional distributors of agricultural inputs, pesticide traders, and key end buyers, etc.

Detailed Information:

Including basic information of the TOP10 importers, contact information, import quantity, import value, price, import source and main suppliers.

Product Focus:

With data-driven and market-oriented approach, we focus on key industries and conduct in-depth analysis of Vietnam's import policies, market demand and major sources of imports. Whether you are a foreign trade company, an investment institution, or a practitioner upstream or downstream of the industrial chain, you can quickly find reliable information and practical strategies here.

Efficient Connectivity:

The guide has a clear format and includes Excel data, which facilitates quick screening, group management and batch contact, helping global suppliers to efficiently connect with the Vietnamese market.

Market Value:

The guide includes an overview of Vietnam's abamectin insecticide industry, an overview of the import market, and a brief analysis of market demand trends, helping global suppliers seize the Vietnamese market and opportunities.

Contents

1 INDUSTRY OVERVIEW

- 1.1 Industry Definition and Classification
- 1.2 Current Status of the Vietnamese Abamectin Insecticide Industry
 - 1.2.1 Supply Situation of the Vietnamese Abamectin Insecticide Industry
 - 1.2.2 Downstream Market Demand Situation of the Vietnamese Abamectin Insecticide Industry
- 1.3 Overview of Foreign Investment in the Vietnamese Abamectin Insecticide Industry

2 IMPORT MARKET OVERVIEW

- 2.1 Import Scale of Abamectin Insecticide in Vietnam
- 2.2 Major Import Sources of Abamectin Insecticide in Vietnam

3 OVERVIEW OF IMPORTERS (2023-2026)

- 3.1 Importers Overview of Abamectin Insecticide in Vietnam (2023)
 - 3.1.1 Total Scale of Importers
 - 3.1.2 Top 5 Importers
- 3.2 Importers Overview of Abamectin Insecticide in Vietnam (2024)
 - 3.2.1 Total Scale of Importers
 - 3.2.2 Top 5 Importers
- 3.3 Importers Overview of Abamectin Insecticide in Vietnam (2025)
 - 3.3.1 Total Scale of Importers
 - 3.3.2 Top 5 Importers
- 3.4 Importers Overview of Abamectin Insecticide in Vietnam (2026)
 - 3.4.1 Total Scale of Importers
 - 3.4.2 Top 5 Importers

4 LIST OF THE TOP 10 IMPORTERS IN 2026

- 4.1 Company
 - 4.1.1 Introduction to Company
 - 4.1.2 Import Status of Company 1, 2023-2026
- 4.2 Company
 - 4.2.1 Introduction to Company
 - 4.2.2 Import Status of Company 2, 2023-2026

4.3 Company

4.3.1 Introduction to Company

4.3.2 Import Status of Company 3, 2023-2026

4.4 Company

4.4.1 Introduction to Company

4.4.2 Import Status of Company 4, 2023-2026

4.5 Company

4.5.1 Introduction to Company

4.5.2 Import Status of Company 5, 2023-2026

4.6 Company

4.6.1 Introduction to Company

4.6.2 Import Status of Company 6, 2023-2026

4.7 Company

4.7.1 Introduction to Company

4.7.2 Import Status of Company 7, 2023-2026

4.8 Company

4.8.1 Introduction to Company

4.8.2 Import Status of Company 8, 2023-2026

4.9 Company

4.9.1 Introduction to Company

4.9.2 Import Status of Company 9, 2023-2026

4.10 Company

4.10.1 Introduction to Company

4.10.2 Import Status of Company 10, 2023-2026

5 SUGGESTIONS OF INVESTMENT AND COOPERATION

5.1 Investment Suggestions

5.2 Cooperation Suggestions
