Abstracts

To help global insecticide manufacturers, exporters, pesticide distributors, traders and related chemical companies efficiently expand into the Vietnamese market, CRI releases the 'Vietnam Acetamiprid Insecticide Import Guide 2023-2026.' The guide provides an overview of the Vietnamese Acetamiprid Insecticide industry, import market, and import company information for the period.

The types of importing companies are diverse, including large agricultural groups, regional distributors of agricultural inputs, pesticide traders and key end buyers etc. This guide features the top 10 importing companies, including company profiles, contact information, and important information such as import volume, value, price, import resources, and major suppliers for 2023-2026 (including Excel data source).

The publication of the 'Vietnam Acetamiprid Insecticide Import Guide 2023-2026' aims to provide pesticide exporters with precise customer acquisition channels, helping them expand into the Vietnamese market more efficiently. It also provides valuable decision-making insights for international trading companies and investment institutions, helping them optimize their regional supply chain strategies. This guide will help suppliers stay abreast of market trends in Vietnam, mitigate potential risks and enhance their international competitiveness.

Industry Overview

Acetamiprid is a highly effective, broad-spectrum, and low-toxicity systemic insecticide belonging to the chloronicotinic class. It is primarily used to control piercing-sucking pests such as aphids, whiteflies, leafhoppers, and thrips on crops like vegetables, fruit trees, and rice.

Vietnam is a major agricultural country with widespread cultivation of cash crops such as rice, vegetables, fruit trees, coffee, and pepper. Located in a tropical climate zone prone to pests and diseases, Vietnam has a consistently stable demand for highly effective insecticides.

With the promotion of modern agriculture, the growth of facility agriculture, and the increasing export requirements for high-quality, low-residue agricultural products, the application of acetamiprid insecticide formulations in conventional pest control programs continues to expand.

Vietnam's local agrochemical industry has limited capacity for pesticide technical production, especially for specialized systemic insecticides like acetamiprid, and is heavily reliant on imports.

The Vietnamese acetamiprid insecticide market has diverse participants, including local branches/agents of international multinational agrochemical companies, local agrochemical companies and importers, agricultural supply distribution groups and regional distributors, and trading companies.

The import of acetamiprid insecticides in the Vietnamese market will be expected to maintain steady growth in the future. This growth is driven by the continued advancement of agricultural modernization, the expansion of greenhouse agriculture, the increasing proportion of high-value-added crop cultivation, and the implementation of stringent regulations on pesticide products.

Import Market Overview

Vietnam has limited domestic production capacity for acetamiprid insecticides and relies heavily on imports.

According to CRI analysis, the Vietnamese market for acetamiprid insecticides is primarily driven by imports. This is because domestic production capacity for both active ingredients and formulations of this pesticide is limited. The country is highly dependent on the international market for the supply of active ingredients and finished formulations.

According to CRI statistics, approximately 90 buyers in Vietnam imported acetamiprid insecticide in 2024, totaling US\$ 7.17 million, an increase of 12.3% year-on-year. In 2025, Vietnam's total acetamiprid insecticide imports reached US\$ 5.76 million, a 19.6%

decrease compared to the same period in 2024.

China and Japan are Vietnam's the top two sources of acetamiprid insecticide imports.

According to CRI analysis, China and Japan were the top two sources of Vietnam's acetamiprid insecticide imports, accounting for approximately 94.3% and 4.2% of total imports respectively in 2025.

CRI projects that Vietnam's overall demand for pesticides will continue to rise, driven by increasing pest and disease pressures, expanded crop cultivation, and increased agricultural inputs.

Overview of Foreign Investment in Vietnam's Acetamiprid Insecticide Industry

Investment Background Vietnam's agriculture is primarily export-oriented, focused on cash crops, and its tropical climate leads to high rates of pests and diseases. With the advancement of agricultural modernization, the development of facility agriculture (greenhouses, drip irrigation, etc.), increased demands for export quality and safety, and stricter regulations on pesticide residues, traditional highly toxic products are gradually being replaced by more efficient, low-residue formulations.

This has driven increased market demand for systemic, long-acting pesticides like acetamiprid. Overall, foreign investment in Vietnam's pesticide production or high-end import and distribution businesses has a clear business logic and long-term growth potential.

Investment Advantages

1. Political stability and rapid economic development. The Vietnamese government has strong governing capabilities, consistent policies, and a focus on economic development and improving people's livelihoods.
2. Relatively low labor costs.
3. Strategically located in the eastern part of the Indochina Peninsula, with a 3,260-kilometer coastline and numerous ports, transportation is convenient.
4. Relatively relaxed policies and regulations provide foreign investors with comprehensive legal protections and generous preferential policies.
5. Vietnam has a high level of openness to the outside world, with 19 free trade agreements signed or in progress. Investors can use platforms such as RCEP and the China-ASEAN Free Trade Area to explore a broader international market.

Investment Regulations

According to Vietnam's Investment Law and other regulations, pesticide production in Vietnam is a conditional investment sector, but there are no absolute restrictions on foreign investment. Foreign investors can establish wholly foreign-owned enterprises or joint ventures with local companies in accordance with the Investment Law and the Enterprise Law. Before establishing a project, foreign investors must complete necessary procedures such as investment registration, company registration, and land use approval, and obtain registration and permits related to pesticide production and sales from the agricultural authorities.

Guide Highlights:

Comprehensive Coverage:

This directory includes major importers in Vietnam, including large agricultural groups, regional distributors of agricultural inputs, pesticide traders, and key end buyers, etc.

Detailed Information:

Including basic information of the TOP10 importers, contact information, import quantity, import value, price, import source and main suppliers.

Product Focus:

With data-driven and market-oriented approach, we focus on key industries and conduct in-depth analysis of Vietnam's import policies, market demand and major sources of imports. Whether you are a foreign trade company, an investment institution, or a practitioner upstream or downstream of the industrial chain, you can quickly find reliable information and practical strategies here.

Efficient Connectivity:

The guide has a clear format and includes Excel data, which facilitates quick screening, group management and batch contact, helping global suppliers to efficiently connect with the Vietnamese market.

Market Value:

The guide includes an overview of Vietnam's acetamiprid insecticide industry, an overview of the import market, and a brief analysis of market demand trends, helping global suppliers seize the Vietnamese market and opportunities.

Contents

1 INDUSTRY OVERVIEW

- 1.1 Industry Definition and Classification
- 1.2 Current Status of the Vietnamese Acetamiprid Insecticide Industry
 - 1.2.1 Supply Situation of the Vietnamese Acetamiprid Insecticide Industry
 - 1.2.2 Downstream Market Demand Situation of the Vietnamese Acetamiprid Insecticide Industry
- 1.3 Overview of Foreign Investment in the Vietnamese Acetamiprid Insecticide Industry

2 IMPORT MARKET OVERVIEW

- 2.1 Import Scale of Acetamiprid Insecticide in Vietnam
- 2.2 Major Import Sources of Acetamiprid Insecticide in Vietnam

3 OVERVIEW OF IMPORTERS (2023-2026)

- 3.1 Importers Overview of Acetamiprid Insecticide in Vietnam (2023)
 - 3.1.1 Total Scale of Importers
 - 3.1.2 Top 5 Importers
- 3.2 Importers Overview of Acetamiprid Insecticide in Vietnam (2024)
 - 3.2.1 Total Scale of Importers
 - 3.2.2 Top 5 Importers
- 3.3 Importers Overview of Acetamiprid Insecticide in Vietnam (2025)
 - 3.3.1 Total Scale of Importers
 - 3.3.2 Top 5 Importers
- 3.4 Importers Overview of Acetamiprid Insecticide in Vietnam (2026)
 - 3.4.1 Total Scale of Importers
 - 3.4.2 Top 5 Importers

4 LIST OF THE TOP 10 IMPORTERS IN 2026

- 4.1 Company
 - 4.1.1 Introduction to Company
 - 4.1.2 Import Status of Company 1, 2023-2026
- 4.2 Company
 - 4.2.1 Introduction to Company
 - 4.2.2 Import Status of Company 2, 2023-2026

- 4.3 Company
 - 4.3.1 Introduction to Company
 - 4.3.2 Import Status of Company 3, 2023-2026
- 4.4 Company
 - 4.4.1 Introduction to Company
 - 4.4.2 Import Status of Company 4, 2023-2026
- 4.5 Company
 - 4.5.1 Introduction to Company
 - 4.5.2 Import Status of Company 5, 2023-2026
- 4.6 Company
 - 4.6.1 Introduction to Company
 - 4.6.2 Import Status of Company 6, 2023-2026
- 4.7 Company
 - 4.7.1 Introduction to Company
 - 4.7.2 Import Status of Company 7, 2023-2026
- 4.8 Company
 - 4.8.1 Introduction to Company
 - 4.8.2 Import Status of Company 8, 2023-2026
- 4.9 Company
 - 4.9.1 Introduction to Company
 - 4.9.2 Import Status of Company 9, 2023-2026
- 4.10 Company
 - 4.10.1 Introduction to Company
 - 4.10.2 Import Status of Company 10, 2023-2026
