Abstracts

The report covers the analysis and forecast of the global Aircraft wire and cable market as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the global Aircraft wire and cable market, segmenting it based on by types, by aircraft type, by fit and regional demand. Aircraft wire and cable are used to transfer power in aircrafts. The emerging economies, for instance, India and China with rising income of middle class families are fuelling the market of passenger aircrafts and helicopters. Technological advancement of the aircrafts and its components is also propelling the market to grow rapidly. Development and launch of upgraded technologies by major players present in the market, is also expected to make the Aircraft wire and cable market more demanding in the near future.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East and Africa and Latin America. The segmentation also includes, based on by types, by aircraft type, by fit. These include different business strategies adopted by the leading players and their recent developments.

A comprehensive analysis of the market dynamics that is inclusive of market drivers,

restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the aircraft wire and cable market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an inclusive study of the aircraft wire and cable market.

The report provides the size of the aircraft wire and cable market in 2017 and the forecast for the next eight years up to 2025. The size of the global aircraft wire and cable market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Asia Pacific, Middle East and Africa and Latin America has been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. The Aircraft wire and cable market has been analyzed based on expected demand. Bottom-up approach is done to estimate the global revenue of the Aircraft wire and cable market, split into regions. Based on types, aircraft type, fit. The individual revenues from all the regions is summed up to achieve the global revenue for aircraft wire and cable market. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of Aircraft wire and cable by several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global aircraft wire and cable market are Amphenol, Ametek, A.E. Petsche, Carlisle Companies, Leviton, Pic Wire & Cable, Radiall, Rockwell Collins, TE Connectivity, W.L. Gore & Associates, and few others.

The Global Aircraft wire and cable market has been segmented into:

Aircraft Wire and Cable Market, By Type

Aircraft Cable

Aircraft Harness

Aircraft Wire

Others

Aircraft Wire and Cable Market, By Aircraft Type

Commercial Passenger & Cargo Aircraft

Fighter Jets

Corporate Aviation Aircraft

Military Aircraft

Military Helicopters

Aircraft Wire and Cable Market, By Fit

Linefit

Retrofit
