Abstracts

The report covers the analysis and forecast of the cell culture market on global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the cell culture market, by segmenting it based on by product type, application, and regional demand. Robust growing awareness of cell culture-based sera in the past several years have propelled the demand for the cell culture market. Moreover, growing stem cell research is another prime factor driving the market demand. Additionally, advancement for research and development of cell culture product and others fuel the demand of this market.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East and Africa and Latin America. The segmentation also includes by product type, and application in all regions. These include different business strategies adopted by the leading players and their recent developments.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the cell culture market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an

inclusive study of the cell culture market.

The report provides the size of the cell culture market in 2017 and the forecast for the next eight years up to 2025. The size of the global cell culture market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Asia Pacific, Middle East and Africa and Latin America has been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. The cell culture market has been analyzed based on expected demand. Bottom-up approach is done to estimate the global revenue of the cell culture market, split into regions. Based on product type, and application the individual revenues from all the regions is summed up to achieve the global revenue for cell culture. Companies were considered for the market share analysis, based on their innovation and revenue generation. In the absence of specific data related to the sales of cell culture several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include Becton, Dickinson and company, Biospherix Ltd., Cellgenix GmbH, Danaher Corporation, Ge Healthcare, Irvine Scientific, Lonze Group Limited, Merck Group, and VWR International LLC.

The global cell culture market has been segmented into:

Global Cell Culture Market: By Product Type

Equipments

Incubators

Roller bottle equipment

Bioreactors

Others

Consumables

Protein free

Amino acids

Fetal bovine sera

Others

Global Cell Culture Market: By Application

Biopharmaceuticals

Cancer research

Tissue culture

Gene therapy

Others

Global Cell Culture Market: By Geography

North America

U.S.

Canada

Mexico
