Abstracts

The report covers the analysis and forecast of the general surgery equipment market on global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the general surgery equipment market, by segmenting it based on by product, by application and regional demand. Continuous advancement in technology and rising number of aging population worldwide, results in fueling the growth of the general surgical equipment market. Moreover, increasing number of hospitals and clinics across the globe, further propels the market growth during the projection period.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East and Africa and Latin America. The segmentation also

includes by product, and application in all regions. These include different business strategies adopted by the leading players and their recent developments.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the General surgery equipment market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an inclusive study of the general surgery equipment market.

The report provides the size of the general surgery equipment market in 2016 and the forecast for the next nine years up to 2025. The size of the global General surgery equipment market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Asia Pacific, Middle East and Africa and Latin America has been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. The General surgery equipment market has been analyzed based on expected demand. We have used the bottom-up approach to estimate the global revenue of the general surgery equipment market, split into regions. Based on, product, and applications we have summed up the individual revenues from all the regions to achieve the global revenue for general surgery equipment. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of general surgery equipment several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include Boston Scientific Corporation, Integra LifeSciences, 3M Healthcare, Care Fusion Corporation and few others.

The global general surgery equipment market has been segmented into:

Global General Surgery Equipment Market: By Product

Open Surgery Instruments

Handheld Surgical Devices

Surgical Sutures & Staplers

Minimally Invasive Surgery Instruments

Energy Based & Powered Instruments

Computer Assisted Surgical Devices & Medical Robotics

Disposable Surgery Supplies

Global General Surgery Equipment Market: By Applications

Cardiology

Orthopedic Surgery

Wound Care

Minimal Invasive Surgery

Neurosurgery

Plastic Surgery

Others

Global General Surgery Equipment Market: By Geography
