Abstracts

The report covers the analysis and forecast of the medical connectors market global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the medical connectors market, by segmenting it based on by product types, by application, by material, by end- user and regional demand. Robust industrial development in the past several years propels the growth of medical connectors market. Expanding role of resources, consumer trends, technological advancement is another prime factor driving the market demand. Additionally, extensive use of medical connectors in end-user healthcare industries such as diagnostic devices, external devices and others are increasing the demand of this market.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East and Africa and Latin America. The segmentation also includes by product type, application, material and end- user in all regions. These include different business strategies adopted by the leading players and their recent developments.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the medical connectors market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an inclusive study of the medical connectors market.

The report provides the size of the medical connectors market in 2017 and the forecast for the next eight years up to 2025. The size of the global medical connectors market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Asia Pacific, Middle East and Africa and Latin America has been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. The medical connectors market has been analyzed based on expected demand. Bottom-up approach is done to estimate the global revenue of the medical connectors market, split into regions. Based on product type, applications, end-user, and material. The individual revenues from all the regions is summed up to achieve the global revenue for medical connectors. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of medical connectors several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include Smiths interconnect, Molex, AVX Corporation, DDK Ltd and few more.

The global medical connectors market has been segmented into:

Global Medical Connectors Market: By Product Type

- Flat silicone surgical cables
- Power cords with retention systems
- Magnetic medical connectors
- Radio-frequency connectors
- others

Global Medical Connectors Market: By Application

- Patient monitoring devices
- Diagnostic imaging devices
- External devices
- Others

Global Medical Connectors Market: By Material

- Plastic
- Metal
- Glass

Global Medical Connectors Market: By End- User

- Ambulatory surgical centers
- Healthcare center

Diagnostic laboratories
