Abstracts

The report covers the analysis and forecast of the global Multi Rotor Drone market as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the global Multi Rotor Drone market, segmenting it based on by application, by payload, by price-range, and regional demand. Multirotor is the rotocraft with more than two rotors. Drone is described as any form of unmanned aerial vehicle that is (UAV). Multirotor drones are the devices which are mostly preferred by the users as it has got many advanced features along with a simpler user interface which helps the user to operate easily. Development and launch of upgraded technologies by major players present in the market, is also expected to make the Multi Rotor Drone market more demanding in the near future.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East and Africa and Latin America. The segmentation also includes, based on by application, by payload, by price-range. These include different business strategies adopted by the leading players and their recent developments.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the Multi Rotor Drone market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an inclusive study of the Multi Rotor Drone market.

The report provides the size of the Multi Rotor Drone market in 2017 and the forecast for the next eight years up to 2025. The size of the global Multi Rotor Drone market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Asia Pacific, Middle East and Africa and Latin America has been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. The Multi Rotor Drone market has been analyzed based on expected demand. Bottom-up approach is done to estimate the global revenue of the Multi Rotor Drone market, split into regions. Based on application, payload, and price-range. The individual revenues from all the regions is summed up to achieve the global revenue for Multi Rotor Drone market. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of Multi Rotor Drone by several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global multi rotor drone market are Aerovironment, Inc., Aeryon Labs Inc., Aibotix, Coptercam, Cyberhawk Innovations Ltd., D Robotics, Dji Innovations, Draganfly Innovations Inc., Israel Aerospace Industries (IAI), Microdrones GmbH, MicroMultiCopter Aero Technology (MMC), Multicopter service-drone, GmbH, Parrot SA, Yuneec International Co. Ltd., and others.

The Global Multi Rotor Drone market has been segmented into:

Global Multi Rotor Drone Market: By Application

Aerial Shooting

Military

Business and commerce

Environmental Inspection and Monitoring

Survey and Mapping

Precision Farming

Law Enforcement

Others

Global Multi Rotor Drone Market: By Payload

Camera

Electro -optical sensors

Wireless HD video transmission systems

GPS/INS

WI-FI

Autopilot

LiDAR

Chemical, Biological, Radiology, and Nuclear (CBRN) sensors

Laser Designators

Sense and Avoid /tracking Systems

High Speed Data Communication
