Abstracts

The report covers the analysis and forecast of the Polyethylene market on global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the polyethylene market, by segmenting it based on product type, application, and regional demand. Polyethylene is one of the basic chemical materials used in our day to day life is produced from polymerization of ethylene. Polyethylene has the properties such as flexibility, thermal and electrical insulation, chemical and thermal resistivity and so on which makes the product to found its application in various industries such as packaging, construction, electrical & electronics, automotive and so on. Global economy is on the verge of a tectonic shift towards developing countries of Asia Pacific, Latin America and Middle East from the developed countries of North America and Europe because an economic shift towards the emerging market of developing countries such as India, China, Brazil, UAE and so on.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East & Africa, and Latin America. The segmentation also includes product types and applications in all regions.

The competitive profiling of the key players in the global Polyethylene market across five broad geographic regions is included in the study. These include different business strategies adopted by the leading players and their recent developments, as in the field of Polyethylene.

A comprehensive analysis of the market dynamics that is inclusive of market drivers,

restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the Polyethylene market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2024, along with offering an inclusive study of the Polyethylene market.

The report provides the size of the Polyethylene market in 2016 and the forecast for the next eight years up to 2024. The size of the global Polyethylene is provided in terms of volume and revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, and Asia Pacific have been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on volume and revenue being derived through regional pricing trends. Demand for Polyethylene has been derived by analyzing the global and regional demand for Polyethylene in each application for its respective functions. The global Polyethylene market has been analyzed based on expected demand. Forecasts have been based on expected demand from Polyethylene applications. We have used the bottom-up approach to estimate the global revenue of the Polyethylene market, split into regions. Based on product type, application and function type, we have summed up the individual revenues from all the regions to achieve the global revenue for Polyethylene. The application split of the market has been derived using a bottom-up approach for each regional market separately, with the global application segment split being an integration of regional estimates. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of Polyethylene of several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence across all applications.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include BASF SE, Dupont, Chevron Phillips, Dow Chemical Company Saudi Basic Industries Corporation, Exxon Chemicals and so on.

The global Polyethylene market has been segmented into:

Global Polyethylene Market: By Geography

North America

U.S.

Canada

Mexico

Europe

U.K.

Italy

France

Germany

Russia

Spain

Rest of Europe

Asia Pacific

India

China

Japan

Australia

Rest of Asia Pacific

Middle East and Africa

GCC

South Africa

Rest of Middle East and Africa

Latin America

Brazil

Rest of Latin America

Global Polyethylene Market: By Product Type

Low Density Polyethylene (LDPE)

Medium Density Polyethylene (MDPE)

High Density Polyethylene (HDPE)

Global Polyethylene Market: By Application

Packaging

Automotive

Construction

Electrical & Electronic

Household Applications
