The report covers the analysis and forecast of the WiFi routers market on global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the WiFi routers market, by segmenting it based on by bands, by type, by applications and regional demand. Rising adoption of smartphones, smart TVs and tablets is the prime factor driving the growth of global WiFi routers market. Moreover, increasing popularity of faster internet is also a major factor which makes the market demanding. Further down, upcoming advancements and changes in the WiFi router system is further expected to fuel the growth of global WiFi router market during the forecast period of 2017-2025.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East and Africa and Latin America. The segmentation also includes by bands, by type and application in all regions.

The competitive profiling of the key players in the global WiFi routers market across five broad geographic regions are included in the study. These include different business strategies adopted by the leading players and their recent developments.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the WiFi routers market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an inclusive study of the WiFi routers market.

The report provides the size of the WiFi routers market in 2017 and the forecast for the next eight years up to 2025. The size of the global WiFi routers market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Asia Pacific, Middle East and Africa and Latin America has been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. The WiFi routers market has been analyzed based on expected demand. Bottom-up approach is done to estimate the global revenue of the WiFi routers market, split into regions. Based on bands, type and applications, the individual revenues from all the regions is summed up to achieve the global revenue for WiFi routers. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of WiFi routers several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include TP-Link, D-Link, Netgear, Huawei Technologies Co. Ltd., Belkin International Inc. among others.
