Abstracts

The report covers the analysis and forecast of the polyphthalamide market on global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the polyphthalamide market, by segmenting it based on type, end-use and regional demand. The polyphthalamide market contains of its massive applications in fuel lines, metal replacement, LED headlights, catheter tubes, wire casings, toothbrush and hairbrush bristles, pump wear rings, sporting goods, gas pipes, electrical insulation, switches, automotive motor bobbin parts, fuel line connectors, fuel modules, coolant pumps, bushings and bearing pads. Polyphthalamide combines carbon fiber filled PPA, glass fiber filled PPA, mineral filled PPA, unfilled PPA that are widely used by electrical and electronics, electrical and electronics, personal care products and automotive industries. The diverse types of polyphthalamides products prevailing in the market include carbon fiber filled PPA, glass fiber filled PPA, mineral filled PPA, unfilled PPA and others. Polyphthalamide products are typically irregular in shape under microscopic examination that has the potential in creating a massive prospective market for various applications and most of the chemical companies to adapt the technology by 2025.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East & Africa, and Latin America. The segmentation also includes demand of the product and applications in all regions.

The competitive profiling of the key players in the global polyphthalamide market across five broad geographic regions is included in the study. These include different business strategies adopted by the leading players and their recent developments, as in the field

of polyphthalamide market.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the polyphthalamide market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an inclusive study of the polyphthalamide market.

The report provides the size of the polyphthalamide market from 2016 and the forecast for the next nine years up to 2025. The size of the global polyphthalamide product is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Middle East and Africa, and Asia Pacific have been taken into account in estimating the growth of the global market.

The Market estimates for this study have been based on revenue being derived through regional pricing trends. Demand for polyphthalamide has been derived by analyzing the global and regional demand for polyphthalamide in each application for its respective functions. The polyphthalamide market has been analyzed based on expected demand. Forecasts have been based on expected demand from polyphthalamide applications. We have used the bottom-up approach to estimate the global revenue of the polyphthalamide market, split into regions. Based on type, and end-use, we have summed up the individual revenues from all the regions to achieve the global revenue for polyphthalamide. The application split of the market has been derived using a bottom-up approach for each regional market separately, with the global application segment split being an integration of regional estimates. Various Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of polyphthalamide several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence across all applications.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include Arkema, BASF SE, DuPont, Evonik Industries, Solvay, SABIC, Propolymers Inc., EMS Chemie and so on.

The global polyphthalamide market has been segmented into:

Global Polyphthalamide Market: By Geography

North America

U.S.

Canada

Mexico

Europe

U.K.

Italy

France
