#### **Abstracts**

The report covers the analysis and forecast of the NC Machine Tools market on South Korea. The study provides historic data of 2007 along with the forecast for the period between 2017 and 2020 based on production (Revenue and Volume), demand (Revenue and Volume), import(Revenue and Volume) and export(Revenue and Volume) (US\$ Mn).

The study provides a detailed view of the NC Machine Tools market, by segmenting it based on type, category, chuck size, and application. The economy of South Korea is on the verge of a tectonic shift towards a transparent system with legitimacy where NC Machine Tools play a vital role influencing the shift with its innovative approach of distributed open ledger. The automotive industry in South Korea is one of the major applications for NC NC Machine Tools market. The sheet metal is one of the major components used in automotive industry, where the usage of the NC Machine tools is maximum.

By type of NC Machine tools market segmentation includes Turning Center, Vertical Machining Center and Horizontal Machining Center with the demand from the production side as well as from import and export side. In addition, it also includes both the revenue and volume part.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the NC Machine Tools marketin South Korea. Market dynamics

are the factors which impact the market growth, so their analysis helps understand the ongoing trends in South Korea market. Therefore, the report provides the forecast of the South Korea market for the period from 2017 to 2020, along with offering an inclusive study of the NC Machine Tools market.

The report provides the size of the NC Machine Toolsmarket in 2007 and the forecast from 2017 to 2020. The size of the South Korea NC Machine Toolsis provided both in terms of revenue and volume. Market revenue is defined in US\$ Mn. The market dynamics prevalent in South Koreahave been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue and volume being derived through regional pricing trends. Demand for NC Machine Tools has been derived by analyzing the demand for NC Machine Tools in each application for its respective functions. The South Korea NC Machine Toolsmarket has been analyzed based on expected demand. Forecasts have been based on expected demand from NC Machine Tools applications. We have used the bottom-up approach to estimate the South Korea revenue of the NC Machine Toolsmarket. Companies were considered for the market share analysis, based on their innovation and applicationand revenue generation. In the absence of specific data related to the sales of NC Machine Tools of several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence across all applications.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include Hyundai Wia, Yamazaki Mazak, Yunnan CY Group Co., Ltd., Shenji Group Kunming Machine Tool Co., Ltd., Qiqihar Heavy CNC Equipment Co., Qinghai Huading Industries Co., Ltd.

The South Korea Numerical Control Machine Tools market has been segmented into:

South Korea NC Machine Tools Market: By Type, Revenue (\$), Volume, Import (\$, units), Export (\$, units)

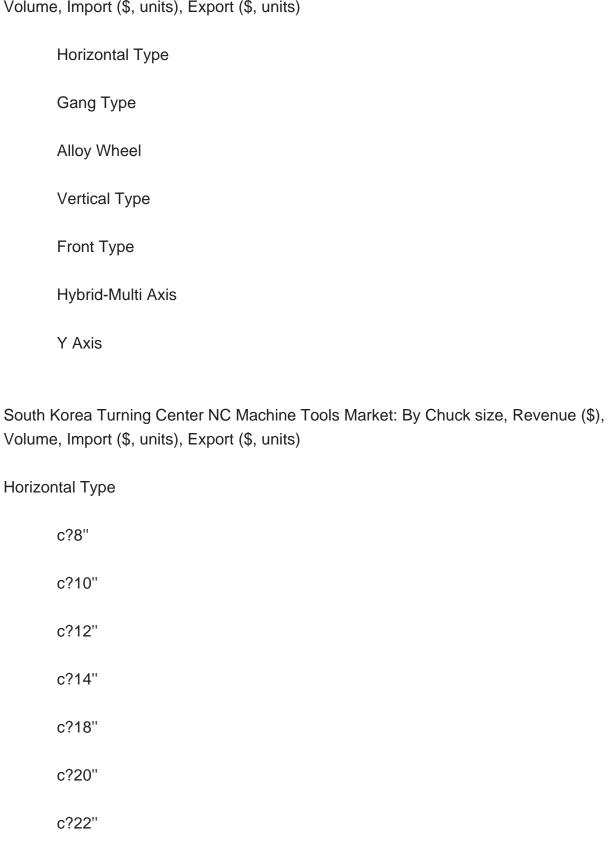

**Turning Center** 

**Vertical Machining Center** 

Horizontal Machining Center

South KoreaTurning Center NC Machine Tools Market: By Category, Revenue (\$), Volume, Import (\$, units), Export (\$, units)
