Backsheet research trend and demand/supply market forecast upon PET

In this report, the research of backsheet is analyzed by type, structure and country in respect of approx. 108 released products from now. It also covers key theory, technology, process and an in-depth analysis of backsheet using demand/supply prospect of the necessary material, PET, rather than back sheet capacity itself.

Analysis of backsheets released until 2010 (Fluorine/Non-fluorine, Lamination, Released Products by Country, by Number of Layers, Year and Type)

Backsheet properties and requirement

Information of approx. 35 related companies (PVF/PVdF Resin, Back Sheet, PET film)

Chart of types of released products by companies

Backsheet market forecast during 2010~2015

Demand/Supply forecast upon scenario by PET film thickness for PV during 2010~2015
