Abstracts

According to SNE Research's Premium Service "Weekly China PV Price Tracker" the price of overall value chain products fell by an average of 22% over the past year. Some major products showed a price decline of above 30%.

PV Major Value Chain Products Price Trend

Source: Weekly China PV Price Tracker, (2012 Version)

The PV market of China cannot be ignored as it is a market with the largest parts and materials demand and the largest cell and module production. SNE Research for the first time in the industry is providing a weekly data service containing price information of 44 different PV products traded in the Chinese market, starting from 2013.

For reliable and timely service the Premium Service is to be provided by cooperation with a local company in China
