Abstracts

Global Savory Snack Products Market is projected to be worth USD 299 billion by 2030

According to SPER Market Research, the Savory Snack Products Market estimated to reach USD 299 billion by 2030 with a CAGR of 4.9%. Due to the abrupt impact of pandemic work culture and lifestyles has been changed; this promoted the savory snack products among consumers. The Shift of consumer preference to convenient food product leads to the growth of Savory Snack Products Market.

Impact of COVID-19 on the Savory Snack Products Market

The overall food & beverage industry got affected by COVID-19 pandemic; decrease in the manufacturing and supply of ingredients for the food & beverage industry. Because of isolation there is short supply and even cancellations, which is hampering the domestic market.

Customers' food preferences has changed the and pushed them to include many healthy and nutritious food products, consumer demand for nuts & seeds, fruit & vegetable-based foods, and products derived from natural sources is likely to gain a higher level of importance.
