RESEARCH METHODOLOGY

In our market size and forecast determination efforts, an extensive secondary research was initially completed to gain a good perspective of the market in each region. Extensive primary research was also carried out by interviewing the key executives from the industry. These interviews helped us to fill-in the data gaps after secondary research. Several secondary sources such as encyclopaedia, directories, and databases have been used to identify and collect information useful for this extensive techno-commercial study. The respondents – selected experts from manufacturers and selected suppliers – have been interviewed to obtain and verify critical information as well as to assess the future prospects. The usage of obtained information is based on the perceived reliability by the research team. In many cases, a combination of several sources was used. Sprout Intelligence provides an in-depth analysis of the market

segmentation, which is a critical element of the market intelligence reports at Sprout Intelligence.
