Abstracts

Executive Summary

India is one of the leading telecom markets across the world, which still has a huge potential for further growth. The industry is currently the second largest worldwide by subscriber base, with a total subscriber base of over 900 million as on July 2012.

The Industry has overcome the declining growth trends observed in the end of 2012, and is set for growth in 2013. Key trends to lookout for in 2013 will be in the areas of 4G, roaming, Mobile Number Portability and overall mobile tariffs.
