Abstracts

The study will be available in electronic form, after an order is received, within 6 days.

This study was compiled by STOCHASIS Management Consultancy S.A. and aims to reflect the current state of the Clinical Trials in Greece and to examine its prospects, while presenting information on the international market.

More specifically, the first five chapters of the study feature information on the Clinical Trials, which refer to general characteristics, the institutional framework, the demand, the offer and the size of the industry. In the sixth chapter of the study we will present information on the relevant market internationally. Finally, we will present the conclusions and the prospects of the market, as well as an annex with selected financial indicators of major enterprises in 2011-2013.

The basic factors that influence the demand for clinical studies are:

The research & development expenses by the pharmaceutical companies, 70% of which concerns clinical studies

The regulatory framework

The expertise and the human resources cost, in the area of health and research

The Greek businesses of the sector usually take over clinical studies from multinational pharmaceutical companies or are sub-contracting from international clinical studies companies (CRO's).

The financial status of the clinical studies companies is defined as satisfactory, since

the companies are not significantly influenced by the domestic macroeconomical environment.

Contents

SYNOPSIS

INTRODUCTION

1. GENERAL INFORMATION

- 1.1 Definition and categories
- 1.2 Budget and procedures

2. INSTITUTIONAL FRAMEWORK

3. DEMAND

- 3.1 Determinants of demand
- 3.2 Analysis of selected determinants of demand

4. OFFER

- 4.1 Financial industry analysis (2011-2013)

5 MARKET

- 5.1 Number and value of clinical studies
