## Abstracts

Incontinence - sometimes called urinary incontinence - is the inability to hold urine in the bladder. Urinary incontinence is not a disorder. It is actually a symptom of other conditions and has many possible causes. Urinary incontinence is twice as common in women as in men and affects at least 1 in 3 older women. The adult incontinence products market in Finland is expected to increase at a CAGR of 6.6% till 2027. Rising demand for adult incontinence products from the geriatric population base, increasing acceptance of adult incontinence products are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for adult incontinence products. The Finland adult incontinence products market is segmented on the basis of product, and distribution channel. On the basis of product, the adult incontinence products market in Finland has been segmented into light incontinence products, moderate & heavy incontinence products. The light incontinence products segment is estimated to account for the largest share of the adult incontinence products market in Finland. By distribution channel, the adult incontinence products market in Finland has been segmented into hypermarkets, supermarkets, health & beauty stores, online retailing, others.

The competitive landscape of the market is highly consolidated and dominated by key players such as Essity AB, The Procter & Gamble Company (P&G).
