Abstracts

Incontinence - sometimes called urinary incontinence - is the inability to hold urine in the bladder. Urinary incontinence is not a disorder. It is actually a symptom of other conditions and has many possible causes. Urinary incontinence is twice as common in women as in men and affects at least 1 in 3 older women. The adult incontinence products market in Ghana is expected to increase at a CAGR of 9.8% till 2027, according to StrategyHelix. Rising demand for adult incontinence products from the geriatric population base, increasing acceptance of adult incontinence products are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for adult incontinence products. The Ghana adult incontinence products market is segmented on the basis of product, and distribution channel. By product, the adult incontinence products market in Ghana has been segmented into light incontinence products, moderate & heavy incontinence products. The light incontinence products segment was the largest contributor to the Ghana adult incontinence products market in 2020. Based upon distribution channel, the adult incontinence products market in Ghana is categorized into hypermarkets, supermarkets, health & beauty stores, online retailing, others.

The competitive landscape of the industry has also been examined along with the profiles of the key players Hangzhou Haoyue Industrial Co. Ltd., INDEVCO GROUP S.A.L., Quanzhou Jiamei Hygiene Co. Ltd.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the adult incontinence products market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
