Abstracts

Incontinence - sometimes called urinary incontinence - is the inability to hold urine in the bladder. Urinary incontinence is not a disorder. It is actually a symptom of other conditions and has many possible causes. Urinary incontinence is twice as common in women as in men and affects at least 1 in 3 older women. According to StrategyHelix, the adult incontinence products market in Morocco is anticipated to expand positively at a CAGR of 10.2% during the forecast period (2021-2027). Rising demand for adult incontinence products from the geriatric population base, increasing acceptance of adult incontinence products are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for adult incontinence products. The Morocco adult incontinence products market is segmented on the basis of product, and distribution channel. Based on product, the adult incontinence products market in Morocco is categorized into light incontinence products, moderate & heavy incontinence products. In Morocco, the light incontinence products segment made up the largest share of the adult incontinence products market. On the basis of distribution channel, the adult incontinence products market in Morocco has been segmented into hypermarkets, supermarkets, health & beauty stores, online retailing, others.

The report also includes the profiles of leading companies such as Abena A/S, Domtar Corporation, Essity AB, Novatis Group SA, Ontex BVBA.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the adult incontinence products market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
