Abstracts

Incontinence - sometimes called urinary incontinence - is the inability to hold urine in the bladder. Urinary incontinence is not a disorder. It is actually a symptom of other conditions and has many possible causes. Urinary incontinence is twice as common in women as in men and affects at least 1 in 3 older women. The adult incontinence products market in Poland is set to grow at a healthy compound annual growth rate (CAGR) of 9.5% in the next five years, according to data and analytics company StrategyHelix. Rising demand for adult incontinence products from the geriatric population base, increasing acceptance of adult incontinence products are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for adult incontinence products. The Poland adult incontinence products market is segmented on the basis of product, and distribution channel. By product, the adult incontinence products market in Poland has been segmented into light incontinence products, moderate & heavy incontinence products. The light incontinence products segment was the largest contributor to the Poland adult incontinence products market in 2020. Based upon distribution channel, the adult incontinence products market in Poland is categorized into hypermarkets, supermarkets, health & beauty stores, online retailing, others.

The adult incontinence products market is dominated by key players, which are Essity AB, Grupa TZMO, Paul Hartmann AG, Santex S.p.A.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the adult incontinence products market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
