## Abstracts

Air conditioning (AC) is a system used to cool down the temperature in an inside space by removing the existing heat and moisture from the room. It is essential to a comfortable home or work environment. The air conditioning market in Argentina in terms of volume declined by 7 percent, to 905 thousand units, in 2019 compared to the previous year, according to data and analytics company StrategyHelix.

The report provides up-to-date market size data covering key market aspects like volume for air conditioning. The Argentina air conditioning market is segmented on the basis of type. By type, the air conditioning market in Argentina has been segmented into room AC, commercial AC. In 2019, the room AC segment made up the largest share of the air conditioning market.

The room AC market is further segmented into window air conditioners, and split air conditioners. Among these, the split air conditioners segment was accounted for the largest share of the market in 2019. Furthermore, the commercial AC market has been categorized into PAC air conditioners, and VRF air conditioners. The PAC air conditioners segment captured the largest share of the market in 2019.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the air conditioning market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
