## Abstracts

Air conditioning (AC) is a system used to cool down the temperature in an inside space by removing the existing heat and moisture from the room. It is essential to a comfortable home or work environment. According to StrategyHelix, the air conditioning market in North America, in terms of volume, increased by 1.8% and reached 15,589 thousand units in 2018 compared with the previous year.

The report provides up-to-date market size data covering key market aspects like volume for air conditioning. The North America air conditioning market is segmented on the basis of type, and country. Based on type, the air conditioning market in North America is categorized into room AC, commercial AC. In North America, the room AC segment made up the largest share of the air conditioning market. Geographically, the air conditioning market in North America is segmented into USA, Canada. USA captured the largest share of the market in 2018.

The room AC market is further segmented into window air conditioners, and split air conditioners. The split air conditioners segment was the largest contributor to the North America air conditioning market in 2018. Furthermore, the commercial AC market has been categorized into PAC air conditioners, and VRF air conditioners. The PAC air conditioners segment is estimated to account for the largest share of the air conditioning market in North America.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the air conditioning market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
