## Abstracts

Air conditioning (AC) is a system used to cool down the temperature in an inside space by removing the existing heat and moisture from the room. It is essential to a comfortable home or work environment. The air conditioning market in Oman in terms of volume declined by 9.1 percent, to 260 thousand units, in 2018 compared to the previous year, according to data and analytics company StrategyHelix.

The report provides up-to-date market size data covering key market aspects like volume for air conditioning. The Oman air conditioning market is segmented on the basis of type. By type, the air conditioning market in Oman has been segmented into room AC, commercial AC. The room AC segment was the largest contributor to the Oman air conditioning market in 2018.

The room AC market is further segmented into window air conditioners, and split air conditioners. The split air conditioners segment is estimated to account for the largest share of the air conditioning market in Oman. Furthermore, the commercial AC market has been categorized into PAC air conditioners, and VRF air conditioners. The PAC air conditioners segment held the largest share of the Oman air conditioning market in 2018.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the air conditioning market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
