Abstracts

Air conditioning (AC) is a system used to cool down the temperature in an inside space by removing the existing heat and moisture from the room. It is essential to a comfortable home or work environment. According to a report by StrategyHelix, the air conditioning market in Russia was estimated at 1,371 thousand units in 2019, an increase of 6.9 percent over the previous year.

The report provides up-to-date market size data covering key market aspects like volume for air conditioning. The Russia air conditioning market is segmented on the basis of type. On the basis of type, the air conditioning market in Russia has been segmented into room AC, commercial AC. The room AC segment held the largest volume share in 2019.

The room AC market is further segmented into window air conditioners, and split air conditioners. In Russia, the split air conditioners segment made up the largest share of the air conditioning market. Furthermore, the commercial AC market has been categorized into PAC air conditioners, and VRF air conditioners. The PAC air conditioners segment was the largest contributor to the Russia air conditioning market in 2019.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the air conditioning market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
